Capital asset information	127 – 128

Compliance Section	
Schedule of expenditures of federal awards	129 – 131
Notes to schedule of expenditures of federal awards	132
Summary schedule of prior audit findings	133 – 134
Independent auditor's report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with government auditing standards	135 – 136
Independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance in accordance with OMB Circular A-133	137 – 138
Schedule of findings and questioned costs	139 – 148
Corrective action plan	149 – 150

December 10, 2010

The Board of Education and Residents
Des Moines Independent Community School District

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Des Moines Independent Community School District (the District) for the fiscal year ended June 30, 2010.

The District operates in compliance with generally accepted accounting principles (GAAP) and prepares its financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34. The report has been prepared to conform to guidelines recommended by the Association of School Business Officials (ASBO) International and the Government Finance Officers Association (GFOA) of the United States and Canada.

McGladrey & Pullen, LLP, Certified Public Accountants, have issued an unqualified ("clean") opinion on the District's financial statements for the year ended June 30, 2010. The independent auditor's report is located at the front of the financial section of this report.

The responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with management of the District. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. We believe that the data herein is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

As is the case every year, the District was required to undergo a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U. S. Office of Management and Budget Circular A-133, Audits of States and Local Governments and Nonprofit Organizations. Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and internal control over compliance, a schedule of findings and questioned costs and corrective action plans (if any) are included in the single audit compliance section of this report.

Profile of the Government

In Iowa, school districts operate in accordance with Dillon's Rule (that is, school districts only have the ability to do that which is expressly authorized by the Code of Iowa), operate under the control of a local board of directors and have fiscal independence from other governmental entities. The District is a political subdivision of the State of Iowa and as such operates public schools and supporting programs for children in preschool through grade twelve.

The District is governed by a seven member Board of Education; members serve overlapping four year terms and are elected on a nonpartisan basis. The Board of Education operates under the policy governance model and thus is a policymaking and planning body whose decisions are carried out by the Superintendent.

The District serves more than 200,000 people who live in Polk and Warren Counties. Covering nearly 86 square miles, the District has developed in the heart of the Des Moines city center, east into Pleasant Hill, west into Windsor Heights and south into Warren County. The District benefits from having strong and diverse neighborhoods and a citizenry deeply involved in its public education. The District's enrollment for 2010 was 30,783, making it by far the largest public school district in Iowa.

Kiplinger ranked Des Moines among its top "10 Best Cities for the Next Decade;" Forbes magazine ranked Des Moines number 1 as one of the "Best Places to Raise a Family;" and lastly the National Civic League ranked Des Moines as one its 2010 All-American Cities promoting civic engagement and cooperation.

The District provides a full range of programs and services including instructional, preschool, student services, school building administration, maintenance of sites and facilities, transportation, food service, child care, custodial, extra co-curricular and athletic activities and community education. The District provides a comprehensive educational program appropriate to students in pre-school through grade twelve. These services include regular and enriched academic education, special education, vocational education and numerous individualized programs such as instruction for students at-risk, gifted and talented or extended learning language (ELL).

The District operates preschool programs for over 1900 children in most elementary schools and two preschool centers. It has 38 elementary schools; 11 middle schools; 2 stand alone ninth grade academies; 6 high schools including an alternative high school; a career and technical institute and central academy; and many other special schools and programs. The District also maintains a maintenance/warehouse facility, a print shop, a wellness center and athletic complexes.

The strength of the District can best be demonstrated by the diversity of the people and the educational programs offered:

- More than 2,700 students attend Central Campus, a Regional Academy, from the Des Moines high and middle schools including 28 other school districts from the Greater Des Moines area. The Advanced Placement program at Central Academy is ranked as one of the top 50 AP schools in the nation, with graduates going on to the world's leading universities.
- Students at the Career and Technical Institute are recognized as the best in the nation in areas ranging from automotive technology to culinary arts to aviation to marine biology. The World Language program offers more areas of study than any other place in Iowa.
- Des Moines Schools offers many different educational programming choices:
 - Two schools, Jefferson and Phillips Elementary Schools, offer students a traditional curriculum.
 - Four schools, Capitol View, Downtown, Moulton and Riverwoods Elementary Schools provide families the option of an extended (year round) school calendar.
 - Cowles School offers Iowa's only public Montessori program.
 - All kindergartens in the district are full day programs.
 - The District has 9th Grade Academies located separately in or away from each of its high schools.

- Central Academy and Hubbell Elementary school currently offer the state's first authorized International Baccalaureate (IB) programs. Stowe, Park Avenue Elementary, and the Walnut Street School are currently working to become authorized IB Primary Years Programmes. Goodrell, Merrill and the Gateway Secondary School are currently pursuing authorization as IB Middle Years Programmes.
 - Wright and Howe have recently been recognized as Bernstein Artful Learning schools.
 - Lastly, the district recently received state approval to start a public charter school for some of its at-risk middle school students.
- The District is also one of the first in the nation to help working parents stay close to their children during the school day. Two schools, the Downtown and Walnut Street Schools, are located in the heart of the city's business district. The Downtown School has been cited as a national example of a modern elementary school.
 - Carver Community School is a model of educational and community programs, like the Boys and Girls Club, joining together to help students achieve their full potential and is one of the models cited by the National Civic League when awarding Des Moines the title of 2010 All-America City.
 - Programs such as Scavo High School, Future Pathways and High School and Middle School Alternative Education Centers provide alternatives to help students succeed in middle and high school and graduate.

Economic Condition and Outlook

Local Economy - The Des Moines Independent Community School District is located in the center of Iowa, primarily in the city of Des Moines (City). The City is the industrial, commercial, financial, trade, transportation and governmental center of Iowa. The City's insurance industry is the third largest in the world, after London and Hartford, with over 200 insurance offices/headquarters located in Des Moines. Insurance activities are part of a strong local economy that is also based in agriculture, manufacturing, technology, education, health care and other services. Principal Financial Group, Inc. and Iowa Health Systems are the major private employers within the District.

The outlook for the local economy is more promising than at this time last year. CNNMoney recently named Des Moines the 8th most recession-proof area in the country. There are a variety of components contributing to the City's economy that in the past has created a stability that has been apparent in the city's lower than state and national unemployment figures. This still holds true even as unemployment rates have risen state and nationwide. The September 2010 unemployment rate for Des Moines was 6.5 percent.

The District has experienced slow but steady increases in its tax base, averaging about 2- 3 percent per year.

At the same time, enrollment taken on October 1, 2009 affecting fiscal year 2010 state funding increased 0.53 percent; while October 1, 2010 enrollment affecting fiscal year 2011 state funding increased 0.02 percent. Enrollment is projected to remain stable or increase slightly in future years.

Long-Term Financial Planning and Relevant Financial Policies - The district's solvency ratio is a measure of the district's fund equity position and is defined as the unreserved, undesignated fund balance (commonly referred to as the cash reserves) divided by the district's total General Fund revenues. Board guidelines state that the solvency ratio should not go below 3 percent, without prior knowledge of the Board. The Iowa Association of School Boards (IASB) considers a solvency ratio of 0 - 5 percent to be adequate for short-term credit purposes, while a ratio of 5 – 10 is within "Target" or "Good" and therefore "can handle the unexpected." The solvency ratio for the district decreased at year end to 3.2 percent, down from 3.3 percent in the prior year. However, when the unspent authorized budget/spending capacity associated with the state mandated across the board cut is factored in as described in Management's Discussion and Analysis, the solvency ratio is 1.7 percent. The district had plans prior to the economic downturn to increase its solvency ratio over time, primarily by not making one time expenditures using cash reserves. However, given the state mandated across the board cuts, plans will now require the district to increase its solvency ratio over a longer period of time.

In addition, the Board monitors the district's unspent spending ratio. This ratio is a measure of the District's unbudgeted authorized spending capacity (not cash reserves) and is defined as the district's unspent spending authority divided by the district's maximum budget authority. It should be noted that reaching the maximum budget authority level would require the board to authorize and levy additional property taxes. The IASB recommends this ratio be in the target range of 10 – 20 percent. The unspent spending authority balance ratio is 12.9 percent, up from 6.1 percent for the prior year.

The District has a ten year Schools Renovation Program and in fiscal year 2010 completed several construction projects at the Career and Technical Center and Jackson Elementary School. Renovation at Roosevelt High School is still under construction. In addition, proceeds from the sale of bonds associated with a new state wide penny sales tax (see below) were used to begin projects - window replacement, drop off lanes, etc - at many different schools within the district.

Major Initiatives – The District continues to work on its energy efficiency. To that end, 38 (up from 26 in the prior year) district schools have received the EnergyStar designation based on their rating in the upper 25 percent nationally for energy efficiency.

In addition, the state passed legislation replacing a local option sales and service tax (LOSST) with a state wide penny sales (SWP) tax. Under LOSST, each district received its pro rata share of LOSST collected in that district. The District continued to collect LOSST until June 30, 2010. Under the new legislation, starting July 1, 2010 a one cent sales tax will be collected state wide and distributed annually to each school district based on their annual enrollment each year through June 30, 2029. The change in how revenue due the district is calculated will result in a projected \$9 – \$10 million decrease in sales tax revenue per year. As part of the new legislation, a revenue purpose statement indicating how this funding will be used by the district was approved on September 9, 2009 by district voters allowing the use of this tax primarily for school repair and renovation.

Voters of the District on September 14, 2010 approved the continuation of the property, plant and equipment tax levy (PPEL) for another 10 years, through fiscal year 2021.

Other Financial Information

Internal Control. Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America. Internal control is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District also is responsible for ensuring that an adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management and external auditors.

As a part of the District's single audit, described earlier, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal awards programs. The results of the District's single audit for the fiscal year ended June 30, 2010 provided no instances of material weaknesses in the internal control or violations of applicable laws.

Budgetary Controls. In addition, the District maintains strong budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, special revenue funds, Debt Service Fund, enterprise funds, Capital Projects Fund and Private Purpose Trust Funds, are included in the annual appropriated budget by program.

Project length financial plans are adopted for the capital projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the function level for all funds combined rather than at the individual fund level.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records materially conform to the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is materially in compliance with these requirements.

Independent Audit. The accounting firm of McGladrey & Pullen, LLP was selected to perform the annual audit in accordance with Chapter 11 of the Code of Iowa. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements, combining and individual fund statements and other schedules is included in the financial section of this report. The Comprehensive Annual Financial Report also includes a statistical section which is unaudited.

Awards and Acknowledgments

We are pleased to say that for the third year in a row the Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Des Moines Independent Public School district for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Achievement, a district must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

In addition, The Association of School Business Officials (ASBO) International has, for the third time, awarded a Certificate of Excellence in Financial Reporting to the district for the fiscal year ending June 30, 2009. This award represents the highest recognition for school district operations offered by ASBO International.

Each Certificate is valid for a period of one year only and the certificates for fiscal year 2009 are included in this report. We believe that our current CAFR continues to meet the GFOA and ASBO International Certificate of Achievement programs' requirements and we are submitting it to both the GFOA and ASBO International to determine its eligibility for another certificate.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the District's accounting and payroll staff and our auditors, McGladrey & Pullen, LLP. We would like to express our appreciation to all staff members who assisted and contributed to this report as well as members of city and county governments. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectfully submitted,

Dr. Nancy Sebring

Independent Auditor's Report

To the Board of Education
Des Moines Independent Community School District
Des Moines, Iowa

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Des Moines Independent Community School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Des Moines Independent Community School District as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2010 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 15, schedule of funding progress on page 55 and the budgetary comparison schedule on pages 56 through 58 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion thereon.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor fund financial statements and individual fund statements as well as the accompanying schedule of expenditures of federal awards as required by the U.S. Office of Management and Budget A-133, *Audits of States, Local Governments and Nonprofit Organizations*, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on them.

McGladrey & Pullen, LLP

December 10, 2010

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

This Management's Discussion and Analysis is provided by the management of the Des Moines Independent Community School District (District) to offer readers an overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2010. We encourage readers to consider this Discussion and Analysis presented here in conjunction with the financial statements, which follow.

Financial Highlights

- **Budget:** The state of Iowa in the spring of 2008 legislatively approved an allowable growth factor of 4 percent from fiscal year 2009 to fiscal year 2010 for the District's General Fund, the same growth that the legislature approved from fiscal year 2008 to fiscal year 2009. This should have resulted in \$4.9 million of new regular program funding. However, due to the global, national, state and local recession, the legislature did not fully fund allowable growth and therefore the additional funding received represented an allowable growth rate of 1.3 percent or \$2.3 million. In addition, during fiscal year 2010, on October 8, 2009, the Governor signed an executive order calling for a 10 percent across the board cut to all state general fund appropriations for fiscal year 2010. The reduction including lost interest income totaled \$17.5 million for the district.

In April 2009, the board approved an expenditure budget for fiscal year 2010 for all funds of \$408.3 million (including transfers). In May 2010, the board approved a budget amendment (including transfers) to expenditures of \$15.8 million for all funds, primarily to recognize increased spending due to construction costs financed from the proceeds from the sale of revenue bonds in March 2010; increases in the receipt of federal funds – primarily federal stimulus funding to offset reductions in state foundation aid; and increases in other federal grants, not known when the original budget was adopted.

As in past years, the District continued to operate within its total statutory budgetary parameters. That is, expenditures (including transfers) for all funds by major function were less than anticipated, 96.8 percent of budget.

The original adopted budget was not decreased for the state mandated across the board cut. However, when the effect of the across the board cut is included in the budget, the District still continued to operate within its total statutory budgetary parameters. That is, expenditures (including transfers) for all funds were 99.2 percent of the budget adjusted for the state mandated across the board cut.

- **Revenue:** Government-wide revenues were \$404.5 million, which primarily consisted of state aid, property taxes, federal grants and local option sales taxes. General Fund revenues accounted for 83 percent of the Government-wide revenue. Program specific revenues in the form of charges for services and grants, and contributions accounted for 34 percent of total fiscal year 2010 revenues.

The General Fund had \$335.0 million in revenues for fiscal year 2010, which primarily consisted of state aid and property taxes. General Fund revenues decreased one percent in fiscal year 2010, primarily due to the state mandated across the board cut necessitated by the global, national, state and local recession. Total state aid decreased 13 percent, while federal funding increased 58 percent, demonstrating how federal stimulus funding received partially covered for the loss of state foundation aid.

Des Moines Independent Community School District

**Management's Discussion and Analysis
Year Ended June 30, 2010**

Expenses: Government-wide expenses were \$368.4 million related to governmental activities, of which \$121.4 million of these expenses were offset by program specific charges for services or grants and contributions. General revenues of \$265.5 million provided for the remaining costs of these programs.

The General Fund had \$337.7 million in fiscal year 2010 expenditures, which primarily consisted of instructional expenditures. General Fund expenditures decreased one percent, again, primarily due to the state mandated across the board cut, somewhat offset by increases in expenditures associated with the receipt of additional federal grant funding throughout the year.

General Fund Balance and Solvency Ratio: The District's overall General Fund balance decreased from \$23.7 million as of June 30, 2009 to \$21.1 million as of June 30, 2010, a decrease of \$2.6 million. The district like all school districts in the state is required to maintain a balanced budget. In an effort to balance the district budget after the state mandated 10 percent across the board cut, one of many strategies the district employed was to use board approved one time funding to fund on-going expenditures.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

The General Fund undesignated, unreserved portion of fund balance decreased from \$11.0 million as of June 30, 2009 to \$10.8 million as of June 30, 2010, a reduction of \$200,000. However, when the unspent authorized budget associated with the state mandated across the board cut is factored in, as required by the Iowa Department of Education (DE), the undesignated, unreserved fund balance is \$5.6 million (a difference of \$5.2 million). Although the state reduced funding (cash) it did not reduce spending authority (associated with maximum authorized budget) for weighted and other state funded programs (not cash). The DE requires all school districts in Iowa to recognize a reservation of fund balance to capture the unspent spending authority associated with the across the board cut. Therefore, although state funding of 10 percent was not received by the district for these weighted programs; undesignated, unreserved fund balance of \$5.2 million had to be reclassified as reserved fund balance.

The District's solvency ratio (unreserved-undesignated fund balance/General Fund revenues) also decreased from 3.3 percent as of June 30, 2009 to 3.2 percent as of June 30, 2010. However, again, when the unspent authorized budget associated with the state mandated across the board cut is factored in as described in the previous paragraph, the solvency ratio is 1.7percent.

Board guidelines set a range of 3 percent – 8 percent for the District's solvency ratio, without prior knowledge of the board. The Iowa Association of School Boards (IASB) considers a solvency ratio of 0-5 percent to be adequate for short-term credit purposes, while a ratio of 5-10 percent is within "target" or "good" and, therefore, "can handle the unexpected." The board has been advised throughout the year that the solvency ratio would decline not only due to the board approved use of one time funds to help manage the affects of the across the board cut, but also due to the DE rule that requires the district to reserve unspent authorized budget associated with programs that carry spending authority and were affected by the state mandated across the board cut.

- **Debt:** On February 2, 2010, the board authorized the sale of revenue bonds of \$70 million with the close of the sale on March 1, 2010. The district received \$75.3 million proceeds (including premium). These bonds are to be paid back with interest from anticipated future revenue the district will receive from the district's portion of the legislatively enacted state wide penny sales tax. Therefore, the district's total long-term debt increased by a net of \$69.15 million during the current fiscal year primarily due to the purchase of revenue bonds. The total outstanding bond and notes debt at the end of the fiscal year is approximately \$71.54 million, consisting of revenue bonds, capital loan notes and qualified zone academy bonds.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

- **Capital Projects** - Schools First (LOSST – local option sales and services tax) and Students First (SWP – state wide penny tax) Plans. While revenues from LOSST sales taxes increased slightly by \$0.4 million from fiscal year 2009 to 2010, tax collections were significantly down from original projections made in prior years. This increase is due to increased sales in the County. Historically, retail sales will be the first sector of the economy to slow down at the beginning of a recession and the first sector to signal a recovery.

Expenses increased by \$12.0 million from fiscal year 2009 to 2010 primarily because of increased Students First Renovation (SWP) program major repair expenditures using the proceeds from the sale of revenue bonds earlier in the fiscal year.

Overview of the Financial Statements

This Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) District-wide financial statements, 2) fund financial statements and 3) notes to basic financial statements. This report also contains required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The Government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements provide both short-term and long-term information about the District's overall financial status. That is, all of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when the cash is received or paid.

Over time, increases or decreases in the District's net assets are an indicator of whether the financial position is improving or deteriorating, respectively. However, to assess the District's overall financial health, nonfinancial factors should also be considered, such as changes in the District's property tax base and the condition of District school buildings.

In the Government-wide financial statements, the District's activities are divided into two categories:

- **Governmental activities:** These are activities primarily supported by property taxes and intergovernmental revenues such as state aid or federal funding, and expenditures are classified by function such as instruction, support services, operation and maintenance of plant, student transportation, operation of noninstructional services and capital construction.
- **Business-type activities:** These are supported by fees charged by the District to help cover the costs of services such as food services, childcare services, home remodeling, automotive services and a wellness center.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. These statements focus on individual parts (funds) of the District, reporting the District's operations in more detail than the Government-wide statements. Some funds are required by state law or bond covenants; some are established to control and manage money for particular purposes.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

- **Governmental funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. These statements explain how basic services, such as regular program and special education, were financed in the short-term as well as what remains for future spending.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund and the Capital Projects Funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. This aggregated information includes the Special Revenue Funds of Student Activity; Management; Physical Plant and Equipment Levy (PPEL); Public Education and Recreation Levy (PERL); DMPS (expendable trust funds); Permanent Funds; and the Debt Service Fund.

- **Proprietary funds:** Proprietary funds offer short-term and long-term financial information about the activities the District operates like businesses, i.e. fees are charged to cover the cost of services rendered.

These funds include activities defined as enterprise funds and internal service funds. The District's enterprise funds are all considered nonmajor and include School Nutrition, Child Care, Preschool, Home Remodeling, Automotive and Wellness Center.

The District has four internal service funds, Self Insurance, Risk Management, Collage and Print Shop. Because all of these services predominately benefit the District's governmental activities, rather than the business-type activities, they have been included in the governmental activities in the Government-wide financial statements.

- **Fiduciary funds:** Fiduciary funds provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others. Fiduciary funds are not reflected in the Government-wide financial statements because the resources of those funds are not available to support the District's own programs. These funds include Pension Trust, Private Purpose Trust and Agency Funds.

Notes to basic financial statements: The financial statements also include notes that provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements.

Des Moines Independent Community School District

**Management's Discussion and Analysis
Year Ended June 30, 2010**

Major features of the Government-wide and fund financial statements:

	Government-Wide Statements	Fund Financial Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	Activities that are not proprietary or fiduciary, such as instruction, administration, and building maintenance	Activities the District operates similar to private businesses such as school nutrition	Activities the District administers resources on behalf of someone else, such as scholarships
Required financial statements	Statement of Net Assets	Balance Sheet	Statement of Net Assets	Statement of Fiduciary Net Assets
	Statement of Activities	Statement of Revenues, Expenditures and Changes in Fund Balances	Statement of Revenues, Expenses and Changes in Net Assets Statement of Cash Flows	Statement of Changes in Fiduciary Net Assets
Accounting basis	Accrual accounting	Modified accrual accounting	Accrual accounting	Accrual accounting
Measurement focus	Economic resources focus	Current financial focus	Economic resources focus	Economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital and short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or within specified periods after year-end of the year; expenditures when goods or services are received and liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and other postemployment benefit information. The District adopts an annual budget for all budgeted governmental funds, enterprise and trust funds in total. A budgetary comparison schedule has been provided.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

Government -Wide Financial Analysis

Net assets: The following table presents a summary of the District's net assets for the year ended June 30, 2010 with comparison totals as of June 30, 2009:

	Governmental Activities 2010	Governmental Activities 2009	Business-Type Activities 2010	Business-Type Activities 2009	Total 2010	Total 2009
Current assets	\$ 288,917,696	\$ 212,747,254	\$ (1,517,989)	\$ (1,328,733)	\$ 287,399,707	\$ 211,418,521
Capital assets, net	327,494,916	297,597,383	2,411,710	2,606,657	329,906,626	300,204,040
Other noncurrent assets	4,470,930	4,355,774	-	118,959	4,470,930	4,474,733
Total assets	620,883,542	514,700,411	893,721	1,396,883	621,777,263	516,097,294
Current liabilities	173,779,462	160,829,840	656,040	533,776	174,435,502	161,363,616
Long-term liabilities	88,129,968	13,425,627	62,205	769,356	88,192,173	14,194,983
Total liabilities	261,909,430	174,255,467	718,245	1,303,132	262,627,675	175,558,599
Net assets:						
Invested in capital assets, net of debt	321,900,574	295,531,637	2,411,710	2,606,657	324,312,284	298,138,294
Restricted	26,709,665	27,723,729	-	-	26,709,665	27,723,729
Unrestricted	10,363,873	17,189,578	(2,236,234)	(2,512,906)	8,127,639	14,676,672
Total net assets	\$ 358,974,112	\$ 340,444,944	\$ 175,476	\$ 93,751	\$ 359,149,588	\$ 340,538,695

The District's combined net assets were greater as of June 30, 2010 than June 30, 2009. The increase occurred primarily in the governmental funds net capital assets as a result of the capitalization of school renovation, issuance of revenue bonds, and major repair projects that were completed as part of the District's Schools First and Students First Renovation Plans. It should be noted that the District uses these capital assets to provide educational services; consequently, these assets are not available for future spending.

At the end of the current fiscal year, the District is able to report a positive balance in total net assets. The same held true for the prior year.

Changes in net assets: The following schedule shows the changes in net assets for the year ended June 30, 2010 with comparison totals for the year ended June 30, 2009. The difference between revenues and expenditures represents the change in net assets.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

	Governmental Activities 2010	Governmental Activities 2009	Business-Type Activities 2010	Business-Type Activities 2009	Total 2010	Total 2009

Noninstructional	3,143,025	2,055,069	-	-	3,143,025	2,055,069
Other expenses	13,361,338	12,221,135	17,514,358	18,356,947	30,875,696	30,578,082
Total expenses	368,369,974	360,575,096	17,514,358	18,356,947	385,884,332	378,932,043
Change in net assets	18,529,168	30,289,500	81,725	(443,196)	18,610,893	29,846,304
Beginning, net assets	340,444,944	310,155,444	93,751	536,947	340,538,695	310,692,391
Ending, net assets	\$ 358,974,112	\$ 340,444,944	\$ 175,476	\$ 93,751	\$ 359,149,588	\$ 340,538,695

- The main revenue sources of state aid and other state sources, property and sales taxes account for 65.3 percent of total revenue.
- The District's expenses primarily relate to instruction and support services which account for 91.2 percent of the total expenses.

Governmental Activities

- State foundation aid and other state sources, property taxes and sales taxes are the primary sources of revenue for the District, 33 percent, 28 percent and 7 percent, respectively, of total governmental activities revenues. Instruction constitutes the largest portion of expenditures at \$243.5 million or 67 percent of governmental activities expenses. The District offers a wide array of programs including general and special education, vocational and college preparatory classes.
- The noninstructional and other expenses of the District accounted for 4.5 percent of total costs.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

Net Cost: The following table presents the total and net cost of the District's major governmental activities including instruction, other support services, noninstructional programs and other expenses, with comparative totals for 2009:

	2010		2009	
	Net (Expense)		Net (Expense)	
	Total Expenses	Revenue	Total Expenses	Revenue
Instruction	\$ 245,423,324	\$ (137,985,307)	\$ 238,676,928	\$ (150,022,476)
Other support services	106,442,287	(105,006,605)	107,621,964	(105,668,526)
Noninstructional programs	3,143,025	(3,108,773)	2,055,069	(1,981,914)
Other expenses	13,361,338	(897,462)	12,221,135	(709,817)
Total expenses	\$ 368,369,974	\$ (246,998,147)	\$ 360,575,096	\$ (258,382,733)

Net cost of governmental activities was financed by general revenues, which are made up of primarily property taxes and state aid. Federal and state governments and charges for services subsidized certain programs with federal stimulus funds, grants and contributions, and other local revenues of \$121.4 million or 32.9 percent of total governmental activities expenses.

Business-Type Activities – Change in Net Assets:

- The School Nutrition and Child Care programs constitute the majority of the business-type activities.
- The School Nutrition's primary sources of revenue are federal revenue and student fees and the primary expenses are staff and commodities. The District's free and reduced participation continued to increase during the fiscal year; therefore, the amount of federal revenue continued to increase, while the amount of student fees decreased. The School Nutrition Fund had a change in net assets of \$363,645 for fiscal year 2010.
- The primary source of revenue for the Child Care program is child care fees and the primary expense is staff. The Child Care Fund had a negative change in net assets of \$(251,863).

Financial Analysis of the District's Funds

Governmental Funds Highlights

General Fund:

- The General Fund is the principal operating fund of the District. The decrease in fund balance in the General Fund for the fiscal year was \$2.6 million. The District's solvency ratio (unreserved-undesignated fund balance/General Fund revenues) decreased from 3.3 percent to 3.2 percent primarily due to the planned board approved, one time expenditures relative to the last year of the implementation of the District's new financial and student information systems. However, when DE rules related to the treatment of unspent authorized budget are factored in, the solvency ratio is 1.7 percent.
- The decrease in General Fund revenues (1 percent) compared to fiscal year 2009 was primarily due to the state mandated across the board cut necessitated by the global, national, state and local recession. Total state aid decreased 13 percent, while federal funding increased 58 percent, demonstrating how federal stimulus funding received made up for some of the lost state foundation aid.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

The decrease in General Fund expenditures (1 percent) compared to fiscal year 2009 was again, primarily due to the state mandated across the board cut, somewhat offset by increases in expenditures associated with the receipt of additional grant funding throughout the year.

Capital Projects Fund:

- The Capital Projects Fund has a total fund balance of \$75.0 million for 2010 and \$8.1 million for 2009. The net increase in the Capital Projects fund for the fiscal year was primarily due to the receipt of the proceeds from the sale of revenue bonds offset somewhat by major repair expenditures associated with the revenue bonds.

Proprietary Fund Highlights

There are no major enterprise funds. The School Nutrition Fund represents 83 percent of the expenditures of total enterprise funds. The District's percent of students eligible for free and reduced meals continued to increase from fiscal year 2009 (65.0 percent) to 2010 (67.5 percent) as in past years, resulting in increased nonoperating revenue from the federal government to cover these meals and a decrease in operating revenues from meal charges to students.

Budgetary Highlights

In accordance with state law, the school board annually adopts a budget following the public notice and hearing requirements. Although the budget documents presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared in accordance with accounting principles generally accepted in the United States of America. As is the District's practice, the District modified its adopted budget once during fiscal year 2010.

- Differences between the original and the final amended budget for the District can be summarized as follows:
 - The total original revenue budget (including transfers) of \$413.1 million, including other financing sources, was increased to \$497.7 million (an increase of \$84.5 million). This is primarily to recognize proceeds from the sale of revenue bonds in March 2010; increases in the receipt of federal funds – primarily federal stimulus funding to offset reductions in state foundation aid; and increases in other federal grants, not known when the original budget was adopted.
 - The total original expenditure budget (including transfers) of \$408.3 million, including other financing uses, was increased to \$424.1 million (an increase of \$15.8 million). This is primarily to recognize increased spending on construction due to the receipt of the proceeds of the sale of revenue bonds, as well as increases in expenditures due to receipt of federal grants, not know when the original budget was adopted.
 - As in past years, the District continued to operate within its total statutory budgetary parameters. That is, expenditures (including transfers) for all funds by major function were less than anticipated, at 97 percent of the amended budget.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

- The District's General Fund, its principal operating fund, continues to remain financially solvent.
 - The District received 95.0 percent and 98.8 percent of budgeted General Fund revenues based on the amended budget and the amended budget including the effects of the 10 percent across the board cut, respectively. Overall General Fund revenue decreased 1 percent over the prior year primarily due to the state mandated across the board cut necessitated by the global, national, state and local recession.
 - The District spent 96.1 percent or 99.2 percent of budgeted General Fund expenditures based on the amended budget and the amended budget including the effects of the 10 percent across the board cut, respectively. General Fund expenditures decreased 1 percent primarily due to the state mandated across the board cut, somewhat offset by increases in expenditures associated with the receipt of additional grant funding throughout the year.
 - At the end of fiscal year 2010, the Unspent Authorized Budget ratio for the General Fund was 12.9 percent, a positive increase when compared to 6.1 percent at the end of fiscal year 2009.

Capital Assets and Debt Administration

Capital Assets: As of June 30, 2010, the District had invested \$329.9 million in capital assets, including school buildings and major repairs, athletic facilities, buses and other vehicles, computers and other equipment. This amount represents a net increase of \$29.7 million from last year, primarily due to the accelerated spending on the Schools First and Students First school renovation plan as a result of the receipt of the proceeds of \$70 million in revenue bonds during the fiscal year.

The following schedule presents capital asset balances, net of accumulated depreciation, for the fiscal year ended June 30, 2010, compared with balances as of June 30, 2009:

	Governmental Activities 2010	Governmental Activities 2009	Business-Type Activities 2010	Business-Type Activities 2009	Total 2010	Total 2009
Land	\$ 4,119,094	\$ 3,950,736	\$ -	\$ -	\$ 4,119,094	\$ 3,950,736
Construction-in-progress	44,804,743	16,903,701	-	-	44,804,743	16,903,701
Land improvements	2,301,424	2,487,792	-	-	2,301,424	2,487,792
Buildings and improvements	269,375,755	267,945,417	-	-	269,375,755	267,945,417
Vehicles, furniture and equipment	6,893,900	6,309,737	2,411,710	2,606,657	9,305,610	8,916,394
Total	\$ 327,494,916	\$ 297,597,383	\$ 2,411,710	\$ 2,606,657	\$ 329,906,626	\$ 300,204,040

Additional information on the District's capital assets can be found in Note 5 to the Basic Financial Statements.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

Debt Administration: As of June 30, 2010, the District had \$71.54 million in bonds and notes outstanding, of which \$3.18 million is due within one year. The following table presents a summary of the District's outstanding long-term debt for the year ended June 30, 2010, with comparative information as of June 30, 2009:

	2010	2009
Capital loan notes	\$ 540,000	\$ 1,060,000
Qualified zone academy bonds	1,000,000	1,000,000
Sales tax revenue	70,000,000	-
Total	\$ 71,540,000	\$ 2,060,000

State statutes currently limit the amount of debt a district may issue to five percent of its total assessed valuation. The current debt limitation for the District is \$544.0 million which is substantially more than the District's outstanding debt.

Additional information about the District's debt can be found in Note 6 to the basic financial statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could affect its financial health in the future:

- District enrollment increased slightly from October 2008 to October 2009 by 0.05 percent. Therefore, the total combined district cost for fiscal year 2011 attributable to the increase in enrollment is \$0.9 million.
- The legislature set the cost per student for fiscal year 2011 at 4 percent more than the cost per student was for fiscal year 2010. The district cost per student determines the amount of state foundation aid the district will receive for fiscal year 2011 from a combination of state aid and property taxes. However, the legislature did not fully fund this increase, but instead relied on federal stimulus funding to partially offset the portion not funded by the state.
- District enrollment increased slightly from October 2009 to October 2010 by 0.02 percent. The enrollment in October 2009 times the district cost per student determines the amount of state foundation aid the district will receive for fiscal year 2012 from a combination of state aid and property taxes. The cost per student from year to year increases by a factor known as allowable growth. Normally, allowable growth is set by the legislature two years prior to the year it will affect the cost per student. However, the legislature has not set the allowable growth rate for fiscal year 2012. Therefore, the total combined District cost for fiscal year 2012 will not be known until the legislature takes action in the session that will convene in January 2011.
- Enrollment per modeling done by the Iowa Department of Education is projected to remain stable or increase slightly in future years.
- The state passed legislation replacing a local option sales and service tax (LOSST) with a state wide penny sales (SWP) tax. Under LOSST, each district received its pro rate share of LOSST collected in the county where the district is located. This district continued to collect LOSST until June 30, 2010. Under the new legislation, a one-cent sales tax will be collected state wide (SWP) and distributed annually to each school district based on their annual enrollment each year through June 30, 2029. The change in how revenue due the district is calculated will result in a projected \$9 – \$10 million decrease in sales tax revenue per year for the district.

Des Moines Independent Community School District

Management's Discussion and Analysis Year Ended June 30, 2010

- The voters of the district on September 14, 2010 approved the continuance of the property, plant and equipment tax levy (PPEL) for another 10 years, through fiscal year 2021.
- Estimates made by the State Revenue Estimating Conference (REC) will be critical in determining the district's future funding in the form of state foundation aid. The REC recently met in October 2010 and revised the state revenue projections upward from what was estimated a year ago.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, please contact Patti Schroeder, Chief Financial Officer, of the Business and Finance Department, 242-7745, Des Moines Independent Community School District, 901 Walnut Street, Des Moines, Iowa 50309.

**Reconciliation of Total Governmental Fund Balances to Net Assets
of Governmental Activities**

June 30, 2010

Total governmental fund balances		\$ 107,634,007
Amount reported for governmental activities in the statement of net assets are different because:		
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds:		
Land	\$ 4,119,094	
Construction-in-progress	44,804,743	
Land improvements	8,914,142	
Buildings and improvements	360,468,041	
Vehicles, furniture and equipment	16,191,292	
Accumulated depreciation	<u>(107,102,315)</u>	327,394,997
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds		
		7,694,179
Internal service funds are used by management to charge the costs of certain activities, such as self-insurance benefits for employees and print shop services to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.		
		12,154,596
Certain liabilities, including bonds and notes payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. These liabilities at year-end consist of:		
Compensated absences	(2,949,121)	
General obligation bonds and notes payable	(1,540,000)	
Sales tax revenue bonds	(70,000,000)	
Deferred charges	501,197	
Bond premiums	(5,274,127)	
Accrued interest payable	(861,154)	
Claims payable for workers' compensation	(639,189)	
Retrospective insurance rating plan	(335,136)	
Other postemployment benefits	(4,396,250)	
Special termination benefit	<u>(10,409,887)</u>	<u>(95,903,667)</u>
Net assets of governmental activities		\$ <u>358,974,112</u>

Des Moines Independent Community School District

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2010**

Net change in fund balances - total governmental funds \$ 64,187,839

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period and other transactions involving capital assets:

Capital outlay	\$ 38,124,836	
Depreciation expense	(8,116,115)	
Proceeds from sale of capital assets	(441,743)	
Gain on sale of capital assets	354,798	
Transfer of capital assets to Business-Type activities	(12,140)	29,909,636

Revenues in statement of activities that do not provide current financial resources are not reported as revenues in the funds, change in deferred revenues 4,566,037

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs and premiums, whereas these amounts are deferred in and amortized in the statement of activities:

Repayment of bond and note principal	520,000	
Issuance of revenue bonds	(70,000,000)	
Payment of bond issuance costs	499,051	
Premium on revenue bonds	(5,271,516)	
Amortization of premiums and bond issuance costs	(486)	(74,252,951)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Decrease in compensated absences	505,483	
Decrease in retrospective insurance rating plan	230,578	
Increase in interest expense	(857,898)	
Increase in claims payable for workers' compensation	(176,895)	
Decrease in pollution remediation liability	477,028	
Increase in other postemployment benefits	(2,692,000)	
Increase in special termination benefits	(1,445,802)	(3,959,506)

Internal service funds are used by management to charge the costs of certain activities, such as self insurance benefits for employees and print shop services, to individual funds. The change in net assets in the internal service funds is reported with governmental activities in the statement of activities.

Change in net assets of governmental activities

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies

The financial statements of the Des Moines Independent Community School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Nature of operations:

The Board of Education (the Board) is organized under the Iowa Code. Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures.

The membership of the Board consists of seven members elected by the public. Under existing statutes, the Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls. The District's major operations include education, pupil transportation, construction and maintenance of District facilities and food service.

Reporting entity:

The District is a primary government that has a separately elected governing body, is legally separate and is fiscally independent of other state or local governments. The financial statements of the District include all District operations required to be included in accordance with Governmental Accounting Standards Board (GASB) pronouncements concerning the reporting entity. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria are: a) appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District; and b) fiscal dependency. In addition, the GASB issued Statement No. 39, in May 2002, which sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the District and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. The District evaluated certain alumni foundations and determined those foundations to not be significant to the District as a whole. Therefore, the District has no component units which meet the GASB criteria and should be included in these basic financial statements.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Significant accounting policies:

Government-wide financial statements: The statement of net assets and the statement of activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of net assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements: Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental funds:

General Fund: The General Fund accounts for all sources used to finance District operation and maintenance, except those required to be accounted for in another fund.

Capital Projects Fund: The Capital Projects Fund accounts for all revenues and expenditures generated through the collection of local option sales tax and expenditures attributable to the Schools First Renovation Program.

The other governmental funds of the District are considered nonmajor and are as follows:

Special Revenue Funds: Accounts for the revenue sources that are legally restricted to expenditures for specific purposes.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extracurricular or cocurricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Physical Plant and Equipment (PPEL) Levy Fund: This fund is authorized by Iowa Code 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of school houses, certain equipment expenditures and other expenditures authorized in Iowa Code 298.3.

Public Education and Recreation Levy (PERL) Fund: This fund is authorized by Iowa Code 300.2 and accounts for transactions related to schoolhouse playgrounds and recreational activities within the District. This fund also accounts for community education activity.

DMPS (Expendable Trust) Fund: This fund accounts for transactions that are received in trust in which both the principal and interest earned can be used to support the District.

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Permanent Trust Fund: The Permanent Trust Fund accounts for transactions that are received in trust in which only the interest earned, and not the principal itself, can be used to support the District.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements. The District has elected not to apply FASB guidance subsequent to November 30, 1989.

The following enterprise funds of the District are considered nonmajor:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code 283A.

Child Care Fund: This fund accounts for transactions for before and after school child care and summer child care programs authorized by Iowa Code 298A.12 and 279.49.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Preschool Fund: This fund accounted for transactions for preschool programs with an instructional component for children who have not yet met the age requirement for school-aged education. The state now provides free preschool to four year olds and program activities are now accounted for in the General Fund.

Home Remodeling Fund: This fund accounts for transactions for the home building/remodeling activity performed by students as part of their instructional or extracurricular program. This fund also accounts for the sale of those homes.

Automotive Fund: This fund accounts for transactions for the service and repair of automobiles performed by students as part of their instructional or extracurricular program.

Wellness Center Fund: This fund accounts for transactions for facilities and services provided for the physical wellness of District employees and outside customers.

Internal Service Funds: The internal service funds are used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District has the following internal service funds:

Self-Insurance Fund: This fund accounts for transactions for self-insured health insurances including medical, dental, prescription and vision received by District employees in which the District is responsible for paying all claims and administrative costs attributable to the insurances listed above.

Risk Management Fund: This fund accounts for transactions for certain health insurances including life and disability received by District employees in which the District is responsible for paying all premiums as specified attributable to the insurances listed above.

Collage Fund: This fund accounts for transactions for materials for arts and crafts and services such as laminating and other related activities.

Print Shop Fund: This fund accounts for transactions for print shop and copying services.

Fiduciary Funds: Fiduciary funds account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities.

The District also has the following fiduciary fund types:

Pension Trust Fund: The Pension Trust Fund (DMTRS) accounts for the District's defined contribution retirement plan for teachers. The fund provides pension benefits to eligible District teachers and administrators.

Private Purpose Trust Funds: These funds account for transactions that are received in trust in which both the principal and interest earned can be used to support the individuals or other organizations. The District's Private Purpose Trust Funds are comprised mainly of scholarship funds to benefit students.

Agency Funds: These funds account for assets held in a custodial capacity by the District for individuals, private organizations or other governments. PTAs and PTOs are generally accounted for in these funds. The District only reports assets and liabilities for these funds.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The Government-wide financial statements and the proprietary, pension trust and private purpose trust financial statements are reported using the “economic resources measurement focus.” The proprietary pension trust and private purpose trust fund financial statements are reported using the accrual basis of accounting. The agency funds do not have a measurement focus but are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital financing and capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and the general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary funds are charges for services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets and claims. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Investments: The investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost. Short-term investments are reported at cost which approximates fair value. Securities traded in a national or international exchange are valued at the last reported sales price at the current exchange rates. There are no investments in a fund earning income that are recorded in another fund.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The Iowa Schools Joint Investment Trust is a common law trust established under Iowa law and is administered by an appointed investment management company. The fair value of the position in the trust is the same as the value of the shares.

Investment earnings: Investment earnings are composed of interest, dividends and net changes in the fair value of applicable investments.

Receivables: All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles, if applicable.

Property taxes are certified (levied) on July 1 by District governments based on the assessed valuation of property as of each January 1, become a lien against the property on July 1, and are due and collectible in installments on September 30 and March 31. Property taxes become delinquent on October 1 and April 1. Current year delinquent property taxes receivable represent the estimated amounts remaining to be collected on taxes levied through June 30. The succeeding year property taxes receivable represent taxes certified by the Board of Education to be collected in the next fiscal year for purposes set out in the budget for the next fiscal year. By statute, the Board of Education is required to certify its budget to the County Auditor by April 15 of each year for the subsequent fiscal year. For accounting and financial reporting purposes, an enforceable legal claim is deemed to exist upon certification by the County Auditor. However, the property taxes certified are intended to finance the subsequent fiscal year. Accordingly, the succeeding year property taxes receivable have been recorded and have been deferred and will not be recognized as revenue until the year for which it is levied.

Due from other governments: Due from other governments represents amounts due from the state of Iowa, other school districts, and other various grants, reimbursements and shared revenues.

Inventories: Inventories are valued at the moving average cost for purchased items and contributed value (fair value at the date received) for government commodities and other donated items. Inventories are recorded as expenses when consumed in the Government-wide financial statements and proprietary funds' financial statements. In the governmental fund financial statements, inventories are accounted for using the consumption method whereby inventory acquisitions are recorded in inventory accounts when purchased and are charged to operations when consumed or sold. Therefore, a reservation of governmental fund balance is required.

Prepaid items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the Government-wide and fund financial statements on the consumption method.

Capital assets: Capital assets which include land; land improvements; buildings and improvements; vehicles, furniture and equipment; and construction-in-progress are reported in the Government-wide financial statements and the proprietary funds' financial statements.

Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more (\$1,000 or more for the School Nutrition Fund) and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair value at the date of donation.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Buildings and improvements	20 - 50 years
Vehicles, furniture and equipment	5 - 15 years

The District's collection of library books and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Cash flows: For purpose of the cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Salaries and benefits payable: Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities. Earned but unpaid payroll as of June 30, 2010, has also been accrued as a liability as of June 30, 2010.

Deferred and unearned revenue: Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Unearned revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of the succeeding year's property tax receivable.

Unearned revenue in the statement of net assets consists of the succeeding year's property tax receivable that will not be recognized as revenue until the year for which it is levied and unearned grant proceeds.

Compensated absences: The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Accrued sick leave is earned by all full-time employees at the rate of 15 days annually. Sick leave balances are not paid upon termination of employment. Full-time employees earn vacation in accordance with their employment agreement. The current and long-term liabilities for accumulated vacation are accrued when incurred in the Government-wide and proprietary funds' financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements.

Long-term obligations: In the Government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities on the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Concluded)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, through current year operations. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity: In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for expenditures or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Designated funds consists of facility rentals in the amount of \$14,888 and decentralized school budgets in the amount of \$1,236,326.

Net assets: Net assets represent the difference between assets and liabilities in the Government-wide financial statements. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net assets invested in capital assets, net of related debt, excludes unspent debt proceeds. Unspent debt proceeds (which includes proceeds reserved for debt retirement) for the Capital Projects Fund was \$71,219,785. Net assets are reported as restricted in the Government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Net assets restricted through enabling legislation as of June 30, 2010 consists of \$848,647 for debt service, \$2,440,711 for management levy, \$3,879,543 for physical plant and equipment levy, \$156,676 for public education and recreation levy, and \$3,819,212 for sales tax levy.

Donor restricted net assets include \$2,123,740 for net assets in the DMPS (Expendable Trust) Fund which is to be used for the Smouse School and \$11,525 in the Permanent Fund to be used for teacher education and training.

Other purposes restricted net assets of \$13,429,611 is for various grants and Medicaid programs.

The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 2. Legal Compliance

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for budgeted governmental, enterprise and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, noninstructional programs and other expenditures. The District adopts its annual program budget on a GAAP basis of accounting.

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison as required supplementary information based on the program structure as required by state statute for its legally adopted budget.

The Child Care Fund, Preschool Fund and Collage Fund had deficit balances as of June 30, 2010, of \$253,772, \$677,879 and \$79,158, respectively. In past years, all childcare and preschool programs were reported as one fund. For many years, the child care programs operated and maintained a surplus, while preschool programs maintained a deficit. When combined into one fund, these programs in the aggregate showed an overall surplus. During fiscal year 2007, the State Department of Education mandated that child care programs be accounted for as two separate funds, preschool and child care. The deficit balance in the Preschool Fund is now shown separately. The state now provides free preschool to four year olds and program activities are now accounted for in the General Fund. Therefore, the District plans to eliminate the remaining negative balance in the preschool enterprise fund when the child care enterprise fund is able to absorb the balance. For several years, the negative balance in the Collage Fund was decreasing. The District will analyze the fund's activity and take the necessary steps to reduce the negative fund balance.

Note 3. Cash and Cash Equivalents and Investments

As of June 30, 2010, the District's cash, cash equivalents and investments (including fiduciary fund assets) were as follows:

Cash and other deposits	\$	41,686,145
Investments, primarily pension trust		321,697,881
	\$	<u>363,384,026</u>

In addition, the District has cash held with agent of \$6,008,006.

Authorized investments: The District is authorized by statute to invest public funds not currently needed for operating expenses in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured Iowa depository institutions approved by the Board; prime eligible bankers' acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; and certain joint investment trusts. However, the District's investment policy additionally limits investments in commercial paper to obligations at the time of purchase rated within the two highest ratings issued by nationally recognized statistical rating organizations with a maturity less than 270 days, with no more than 5 percent at the time of purchase placed in the second highest classification. The District's investment policy additionally limits investments in prime bankers' acceptances that mature within 270 days and that are eligible for purchase by a federal reserve bank.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 3. Cash and Cash Equivalents and Investments (Continued)

The above description of authorized investments does not apply to the Des Moines Teachers' Retirement System (DMTRS) Pension Trust Fund, whose investments are governed by the underlying Plan document, or investments donated to the District. As of June 30, 2010, all District investments in corporate bonds and stocks were held by the DMTRS or represent stock donated to special revenue and fiduciary funds. All the District investments, other than donated investments, are held in securities backed by the U.S. Government or its agencies.

Interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy requires operating funds to be invested in investments that mature within 397 days or less. When investing other than operating funds, the investments must mature according to the needs of the funds. Operating funds of the District are funds which are reasonably expected to be used during a current budget year or within 15 months of receipt.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

Des Moines Independent Community School District (without DMTRS)

	Fair Value	Investment Maturities (in Years)			
		Less than 1	1 - 5	6 - 10	More than 10

Note 3. Cash and Cash Equivalents and Investments (Continued)

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment policy does not formally address credit risk.

As of June 30, 2010, the District's investments were rated as follows:

Concentration of credit risk: The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet all anticipated cash requirements. The District's policy further restricts investments in prime bankers' acceptances and commercial paper to no more than 10 percent of the investment portfolio for each type of investment, excluding DMTRS investments and no more than 5 percent of the investment portfolio can be invested in the securities of a single issuer.

More than 5 percent of the District's investments are in mortgage-backed securities with Federal Farm Credit Bank and Federal National Mortgage Association. These investments are 10.98 percent and 27.87 percent, respectively, of the District's total investments. The investments in U.S. Government Securities, Corporate Equities and Corporate obligations, are not subject to concentration of credit risk due to either being guaranteed by the U.S. government, considered a pooled investment, or none of the securities underlying the total investment type is more than 5 percent in any one issuer.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. It is the District's policy to require that time deposits in excess of FDIC insurable limits be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. Chapter 12c of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized.

As of June 30, 2010, the District's deposits with financial institutions were entirely covered by federal depository insurance or insured by the state through pooled collateral, state sinking funds and by the state's ability to assess for lost funds.

As of June 30, 2010, \$97,920,148 of the District's investments was uninsured and unregistered, with securities held by the counterparty's trust department or agent in the District's name.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 4. Interfund Receivables/Payables and Transfers

Individual interfund receivable and payable balances as of June 30, 2010 are as follows:

	Due From Other Funds	Due To Other Funds
Nonmajor enterprise funds	\$ -	\$ 1,945,229
Internal service funds	1,945,229	-
	<u>\$ 1,945,229</u>	<u>\$ 1,945,229</u>

Interfund balances result from the time lag between the dates that 1) interfund goods or services are provided or reimbursable expenditures occur, 2) transactions are recorded and 3) payments between funds are made.

	Advances To Other Funds	Advances From Other Funds
Nonmajor enterprise funds	\$ 197,797	\$ 677,879
Internal service funds	553,314	73,232
	<u>\$ 751,111</u>	<u>\$ 751,111</u>

The \$677,879 in the nonmajor enterprise funds is attributable to the Preschool fund. This balance will be resolved when the related Child Care fund becomes solvent enough to absorb the balance.

The \$73,232 in the Internal Service funds is attributable to the Collage fund. This advance will be repaid once the fund becomes solvent.

None of the balances are expected to be collected in the subsequent year.

The following is a schedule of transfers as included in the basic financial statements of the District:

	Transfers In	Transfers Out
Nonmajor funds, governmental funds	\$ 559,078	\$ 559,078

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorization.

On March 13, 2002, the District issued \$450,000 of capital loan notes, with interest varying from 2.0 percent to 4.2 percent, for the purpose of installing energy-efficient heating and cooling systems. As of June 30, 2010, the capital loan notes liability was \$60,000. The maturity date for the notes is 2011.

On December 1, 2003, the District issued \$1,000,000 of qualified zone academy bonds for the purpose of remodeling projects at Weeks Elementary School. As of June 30, 2010, the qualified zone academy bonds liability was \$1,000,000. The District will make annual payments into the debt sinking fund with the total balance of the loan maturing in 2011.

On April 20, 2004, the District issued \$3,100,000 of capital loan notes, with interest varying from 2.50 percent to 3.75 percent, to finance energy improvements within school facilities of the District. As of June 30, 2010, the capital notes liability was \$480,000. The maturity date for the notes is 2011.

The District has pledged future statewide penny school infrastructure, services and use tax revenues to repay the \$70,000,000 of bonds issued March 2010. The bonds were issued for the purpose of financing costs of school infrastructure improvement projects. The bonds are payable solely from the proceeds of the statewide penny school infrastructure, services and use tax revenue received by the District and are payable through 2029. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds were expected to require less than 10 percent of the statewide penny school infrastructure, services and use tax revenues. For the current year, principal and interest paid and total statewide penny school infrastructure, services and use tax revenues and were \$0 and \$0, respectively.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 6. Noncurrent Liabilities and Notes Payable (Concluded)

Annual debt service requirements to maturity as of June 30, 2010 are summarized as follows:

Year Ending June 30:	Governmental Activities		
	Principal	Interest	Total
2011	\$ 3,180,000	\$ 4,334,020	\$ 7,514,020
2012	2,590,000	3,418,000	6,008,000
2013	2,685,000	3,288,500	5,973,500
2014	2,780,000	3,154,250	5,934,250
2015	2,885,000	3,015,250	5,900,250
2016 - 2020	16,305,000	12,796,500	29,101,500
2021 - 2025	20,535,000	8,325,250	28,860,250
2026 - 2029	20,580,000	2,639,250	23,219,250
Total	\$ 71,540,000	\$ 40,971,020	\$ 112,511,020

As of June 30, 2010, the District did not exceed its legal debt margin, computed as follows:

Total assessed valuation	\$ 10,880,800,258
Debt limit of 5% of total assessed valuation	\$ 544,040,013
Amount of debt applicable to debt limit, total general obligation bonded debt	71,540,000
Excess of debt limit over bonded debt issued, legal debt margin	\$ 472,500,013

Compensated absences are generally liquidated by the General Fund and the retrospective rating plan liability is liquidated by the Management Fund, a nonmajor governmental fund.

Special Termination Benefits: The District offered a special termination benefit to certified teachers and administrators. To be eligible to participate in this Plan, an employee must (1) have attained age 55; (2) have at least 10 consecutive contract years of employment with the District; (3) have worked a minimum of 100 days during the contract year in which he or she elects to participate in this Plan; (4) have not received an official notice of lay off or termination; (5) not be subject to termination pursuant to Iowa Code Section 279.15 or Section 279.27, whether such termination occurs before or after the acceptance of his or her application and (6) otherwise meet the requirements of this Plan. The special termination benefit allows an eligible employee to (1) if at the time of retirement has health insurance, to use the value of their accumulated sick leave benefit and annual special leave to pay for health insurance until they reach the age of 65 and opt for Medicare benefits, with any remaining funds at that time paid out in a single lump sum payment, or (2) if at the time of retirement has no health insurance, or already reached the age of 65, to pay out the value of their accumulated sick leave benefit and annual special leave over five equal annual payments into a tax sheltered annuity of their choice. As of June 30, 2010, the District has \$2,378,030 accrued in the Management Fund, \$242,860 accrued in the General Fund relating to employees over age 65 as they are considered due, plus an additional amount not considered due of \$10,409,887 recorded only in the government-wide financial statements. The current year cost to the District was \$3,757,487 which consisted of 74 participants in the plan.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 7. Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

As of June 30, 2010, the District was involved in construction projects with an estimated cost to complete the construction projects of \$18,654,000.

Note 8. Risk Management

The District has chosen to establish a risk financing fund for risks associated with the self-insurance plan for medical, dental and vision benefits. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlements. The total charge allocated to each of the funds (the allocation is based upon the percentage of each fund's current year payroll of the District) is calculated using trends in actual claims experience. Losses on medical claims are limited through the purchase of stop-loss insurance to \$75,000 per accident or disease, and 120 percent of actuarially projected claims for the District in total.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR) which represent estimates of the eventual loss on claims arising prior to year-end. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	Year Ended June 30,	
	2010	2009
Unpaid claims, beginning of year	\$ 4,485,806	\$ 4,580,272
Current year claims and changes in estimates	46,435,049	44,756,308
Claim payments	(46,057,994)	(44,850,774)
Unpaid claims, end of year	<u>\$ 4,862,861</u>	<u>\$ 4,485,806</u>

As of June 30, 2010, the unpaid claims payable of \$4,862,861 is net of \$186,061 of reimbursement receivable that the District expects to receive as it has exceeded its individual stop-loss amount. A total of \$186,061 reinsurance revenue to be received is recorded with claims expense of \$46,435,049.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 8. Risk Management (Concluded)

The District self insures its workers' compensation exposures. As of June 30, 2010, the amount of liabilities recorded for estimated claims payable for workers' compensation was \$839,231 of which \$200,042 was recorded in the Management Fund, a nonmajor governmental fund, and \$639,189 was recorded in the government-wide statements. Losses on workers' compensation claims are limited through the purchase of stop-loss insurance to \$500,000 per individual. Liabilities are reported in the financial statements in accounts payable. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	Year Ended June 30,	
	2010	2009
Unpaid claims, beginning of year	\$ 742,948	\$ 234,857
Current year claims and changes in estimates	2,020,599	2,450,054
Claim payments	(1,924,316)	(1,941,963)
Unpaid claims, end of year	<u>\$ 839,231</u>	<u>\$ 742,948</u>

The District's general liability and automobile liability policies are written under a retrospective rating plan where final premium costs are within a specified minimum and maximum premium. For the policy year ended June 30, 2010, various liability claims remain unsettled; therefore, the District has accrued a liability for the maximum potential additional premium that could be payable under the retrospective rating plan of \$335,136. The liability is recorded in the Government-wide financial statements.

The District continues to carry commercial insurance for all other risks of loss. The District has a \$100,000 deductible on property insurance and a \$500 deductible on auto insurance for automobiles specifically used for driver's education. Settled claims from these risks have not exceeded the planned coverage during any of the past three years.

Note 9. Retirement Systems

Iowa Public Employees' Retirement System:

The District contributes to the Iowa Public Employees' Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the state of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. All District employees, other than teachers and administrators, participate in IPERS. Teachers and administrators may choose to participate in the Des Moines Teachers' Retirement System in lieu of IPERS.

IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117. Details of the plan are provided on a system-wide basis.

Plan members are required to contribute 4.30 percent of their annual salary and the District is required to contribute 6.65 percent of annual covered salaries. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2010, 2009 and 2008 were \$12,066,415, \$11,531,747 and \$10,259,449, respectively, equal to the required contributions for each year.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 9. Retirement Systems (Concluded)

Des Moines Teachers' Retirement System:

The Des Moines Teachers' Retirement System is a single employer defined contribution plan that provides pension benefits for all eligible District employees. The Des Moines Teachers' Retirement System was established as of July 1, 1953, in accordance with Sections 294.8 through 294.10 of the Code of Iowa. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements within the sections of the Code. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees who possess professional qualifications as a requirement for their position of employment, such as a teacher's certificate to be a teacher, are permitted to participate from the date of their employment. There are 1,543 active and retired participants as of June 30, 2010. The plan requires the employees to contribute a varying percentage of their base pay, from 4.91 percent to 7.74 percent, with the percentage actuarially determined based on the age of the employee upon entrance into the plan. The District's contribution is to be 112 percent (and 150 percent of each percentage contribution increase after July 1, 2007) of the amount contributed by the employee. District contributions for each employee vest after four years of service at 100 percent. At age 55, District contributions are vested at 112/150 percent. The total payroll for employees covered by the System for the year ended June 30, 2010 was \$35,954,555 and the total District payroll was \$217,402,778. The employees' contributions during the year ended June 30, 2010 were \$1,918,648 (5.5 percent of the total covered payroll). The District's General Fund made contributions of \$2,228,161 (6.4 percent of the total covered payroll). Plan net assets were \$224,443,481 as of June 30, 2010. Fair values of investments that do not have an established market are reported at estimated fair values. Estimated fair market values are determined based on third-party pricing quotes or the close of market amounts on the last business day of the fiscal year. The activity of this retirement plan as of and for the year ended June 30, 2010 is included as a fiduciary fund, Pension Trust Fund, within these financial statements. The plan does not issue a stand-alone financial report.

Note 10. Other Postemployment Benefits

Plan description: The District sponsors a single-employer health care plan that provides three self funded medical plans including prescription drug benefits to all active and retired employees and their eligible dependents. Retiree coverage begins for employees who have attained age 55 prior to the beginning of the subsequent contract year and have at least 10 consecutive contract years of employment and continues until the retiree is medicare eligible at age 65. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements within the sections of the Code. The plan does not issue a stand-alone financial report.

Funding policy: The current funding policy of the District is to pay health claims as they occur through internal allocated funds. For employees who retired on or before June 30, 2002, the District provides a 100 percent subsidy to the full cost of coverage for both retiree and dependent coverage. For employees who retire on or after June 30, 2002, Des Moines School District provides no subsidy. The health insurance plan contributions on behalf of employees are established and amended through negotiation by management and the union and governed by the District's union contracts.

The required contribution is based on projected pay-as-you-go financing. For fiscal year 2010, the District contributed \$3,019,000. Retiree and active members receiving benefits contributed through their required monthly contributions of:

Rate Tier	Blue Access		
	Wellmark	Blue Access	Union
Employee	\$ 444.00	\$ 405.50	\$ 479.56
Employee + One	846.70	773.30	914.50
Family	1,349.74	1,232.72	1,457.84

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 10. Other Postemployment Benefits (Continued)

Annual OPEB cost and net OPEB obligation: The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance to the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actuarially contributed to the plan and changes in the District's annual OPEB obligation:

Annual required contribution	\$ 5,708,000
Interest on net OPEB obligation	77,000
Adjustment to annual required contribution	(74,000)
Annual OPEB cost (expense)	<u>5,711,000</u>
Contributions and payments made	<u>3,019,000</u>
Increase in net OPEB obligation	2,692,000
Net OPEB obligation - July 1, 2009	<u>1,704,250</u>
Net OPEB obligation - June 30, 2010	<u><u>\$ 4,396,250</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligations for 2010 and the two preceding years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2008	\$ 3,956,000	73.08%	\$ 1,065,000
June 30, 2009	4,009,250	84.06	1,704,250
June 30, 2010	5,711,000	52.86	4,396,250

Funded status and funding progress: Postemployment Benefit Obligations under GASB Statement No. 45 calculated as of July 1, 2009, the most recent valuation date is as follows:

	Total	Members
Actuarial Accrued Liability:		
Current retirees, beneficiaries and dependents	\$ 12,580,000	389
Current active members	30,200,000	4,660
Total Actuarial Accrued Liability (AAL)	<u>42,780,000</u>	<u>5,049</u>
Actuarial value of OPEB Plan Assets	-	
Unfunded Actuarial Accrued Liability (UAAL)	42,780,000	

The covered payroll (annual payroll of active employees covered by the plan) was \$217,402,778 and the ratio of the UAAL to the covered payroll was 19.7 percent. The actuarial value of assets as a percentage of the actuarial accrued liability (funded ratio) is zero.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 10. Other Postemployment Benefits (Concluded)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions: Projections and benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and included in the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2009 actuarial valuation, projected unit credit method was used. The actuarial assumptions included a 4.5 percent annual discount rate and an annual health care cost trend rate of 11 percent for select and 5 percent for ultimate initially, but reduced 0.5 percent each year until reaching the ultimate trend. All rates include a 2.5 percent salary increase assumption. The District's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2009, was 30 years.

Note 11. Pollution Remediation Liability

The District began remodeling three properties and upon commencing work determined asbestos was present and needed to be removed as part of the overall improvement projects. The amount of the asbestos removal liability as of June 30, 2010 is derived from the construction contracts. The District has recorded a liability of \$74,431 in the Capital Projects Fund included in accounts payable and other current liabilities.

Note 12. New Governmental Accounting Standards Board (GASB) Statements and Pending Pronouncements

The District adopted the following Statements during the year ended June 30, 2010:

- GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. This Statement provides guidance regarding how to identify, account for, and report intangible assets. The new standard characterizes an intangible asset as an asset that lacks physical substance, is nonfinancial in nature, and has an initial useful life extending beyond a single reporting period. Examples of intangible assets include easements, computer software, water rights, timber rights, patents and trademarks. This standard provides that intangible assets be classified as capital assets (except for those explicitly excluded from the scope of the new standard, such as capital leases). Relevant authoritative guidance for capital assets should be applied to these intangible assets. This Statement had no effect on the District in the current year.

Des Moines Independent Community School District

Notes to Basic Financial Statements

Note 12. New Governmental Accounting Standards Board (GASB) Statements and Pending Pronouncements (Concluded)

- GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This Statement will improve how state and local governments report information about derivative instruments in their financial statements. The Statement specifically requires governments to measure most derivative instruments at fair value in their financial statements that are prepared using the economic resources measurement focus and the accrual basis of accounting. The guidance in this Statement also addresses hedge accounting requirements. This Statement had no effect on the District in the current year.
- GASB Statement No. 58, *Accounting and Financial Reporting for Chapter 9 Bankruptcies*. This Statement provides guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. It establishes requirements for recognizing and measuring the effects of the bankruptcy process on assets and liabilities, and for classifying changes in those items and related costs. This Statement had no effect on the District in the current year.

The GASB has issued several statements not yet implemented by the District. The District's management has not yet determined the effect these Statements will have on the District's financial statements. However, the District plans to implement all standards by the required dates. The Statements which might impact the District are as follows:

- GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, issued March 2009, will be effective for the District beginning with its year ending June 30, 2011. This Statement is intended to improve the usefulness of information provided to financial report users about fund balances by providing clearer, more structured fund balance classifications, and by clarifying the definitions of existing governmental fund types. Fund balance information is among the most widely and frequently used information in state and local government financial reports. The GASB developed this standard to address the diversity of practice and the resulting lack of consistency that had evolved in fund balance reporting. To reduce confusion, the new standard establishes a hierarchy of fund balance classification based primarily on the extent to which a government is bound to observe spending constraints.
- GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, an amendment of GASB Statement No. 43 and No. 45, issued January 2010, will be effective for the District beginning with its year ending June 30, 2012. This Statement addresses issues related to measurement of OPEB obligations by certain employers participating in agent multiple-employer OPEB plans.
- GASB Statement No. 59, *Financial Instruments Omnibus*, issued June 2010, will be effective for the District beginning with its year ending June 30, 2011. This Statement is intended to update and improve existing standards regarding financial reporting of certain financial instruments and external investment pools. Specifically, this Statement provides financial reporting guidance by emphasizing the applicability of SEC requirements to certain external investment pools, addressing the applicability of GASB 53, *Accounting and Financial Reporting for Derivative Instruments*, and applying the reporting provisions for interest-earning investment contracts of GASB 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Des Moines Independent Community School District

Required Supplementary Information

Des Moines Independent Community School District, Retiree Health Benefit Plan

Schedule of Funding Progress

Fiscal Year Ended	Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
2008	July 1, 2007	\$ -	\$ 35,642,000	\$ 35,642,000	-	\$ 204,419,736	17.44%
2009	July 1, 2007	-	35,642,000	35,642,000	-	217,565,376	16.38
2010	July 1, 2009	-	42,780,000	42,780,000	-	217,402,778	19.68

The information presented in the required supplementary schedule was determined as part of the actuarial valuation date as of July 1, 2009. Additional information follows:

- a. The actuarial method used to determine the ARC is the projected unit credit method.
- b. There are no plan assets.
- c. The actuarial assumptions included: (a) 4.5 percent annual discount rate and b) a health care cost trend rate of 11.0 percent on a select basis and 5.0 percent on an ultimate basis. Select trends are reduced 0.5 percent each year until reaching the ultimate trend.
- d. The amortization method is level of percentage of projected payroll on an open basis.

Des Moines Independent Community School District

Note to Required Supplementary Information

Note 1. Basis of Presentation

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

For the fiscal year beginning July 1, a proposed budget is adopted by the Board and filed with the County Auditor no later than April 15. The budget is certified by the County Auditor to the Department of Management.

Once adopted, the budget can be amended by the Board. The amendment must be published and a public hearing conducted prior to the amendment. Any amendments must be certified to the County Auditor no later than May 31. The proposed expenditure budget is advertised in the local newspaper, together with a notice of public hearing.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for budgeted governmental, enterprise, and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, noninstructional programs and other expenditures. During the year ended June 30, 2010, the District overexpended the other functional area by \$283,658. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. Authorized expenditures cannot exceed the lesser of the certified budget plus any allowable amendments, or the authorized budget, which is the sum of the District's cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. Appropriations as adopted and amended lapse at the end of the fiscal year.

During the year, a budget amendment increased budgeted expenditures by \$15.8 million. The budget amendment was primarily to recognize increased spending due to renovation expenditures during the fiscal year that were not anticipated when the original budget was adopted.

The District is required by the Code of Iowa to budget for its share of media, educational services and special education support provided through the local area education agency. The District's actual amount for this purpose totaled \$12,463,876 for the year ended June 30, 2010.

Des Moines Independent Community School District

Statistical Section Contents

The statistical section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

Contents	Page
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.	75 - 90
Revenue Capacity	
These schedules contain information to help the reader assess the District's most significant local revenue sources, the property tax (or sales tax).	91 - 97
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.	98 - 103
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	104 - 105
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	106 - 128

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year. The District implemented GASB Statement No. 34 in fiscal year 2002; schedules presenting government-wide information include information beginning in that year.

@ Students not always at this building. Move from building to building for these programs

**** Special needs schools do not have an "ideal capacity". It depends on the needs of the children that are attending and may vary year to year.

++++ School not completed yet, still expanding.

% These buildings are being used to house the 9th graders from our high schools. The numbers for capacity and enrollment are rolled in with the high schools.

^ FY2009 information has updated square footages and capacity calculations per Facilities Department.

\$ Building in process of renovation for student use in FY09, therefore, no ideal capacity or enrollment data for FY08.

Des Moines Independent Community School District

**Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2010**

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of the Des Moines Independent Community School District for the year ended June 30, 2010. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Significant Accounting Policies

Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal grants is recognized when they become both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Pass-Through Funding

Of the federal expenditures presented in the schedule, the District provided federal awards to subrecipients as follows:

Program Title	Federal CFDA Number	Amount Provided to Subrecipient
Title I Grants to Local Educational Agencies	84.010A	\$ 106,755
Education for Homeless Children and Youth	84.196	23,130
ARRA - Title I Basic	84.389	35,150

Des Moines Independent Community School District

**Summary Schedule of Prior Audit Findings
Year Ended June 30, 2010**

	Findings	Status	Corrective Action Plan or Other Explanation
Significant Deficiencies in Internal Control:			
09-II-A	The District does not have adequate segregation of duties needed over student activity funds at the schools.	Uncorrected	See similar finding and corrective action plan at 10-II-A
Instances of Noncompliance over Federal Awards			
09-III-A	The District did not have a system in place to document the time of split funded employee payroll costs related to Title I, Title II, Special Education, Reading First and HeadStart until January 1, 2009.	Partially corrected	See similar finding and corrective action plan at 10-III-C
09-III-B	The District did not serve eligible schools or attendance areas in rank order according to their poverty level.	Partially corrected	See similar finding and corrective action plan at 10-III-A
09-III-C	The District ensures vendors providing one time services in excess of \$25,000 are not suspended or debarred. However, the District did not ensure vendors were not suspended or debarred in situations where the District paid multiple invoices less than \$25,000 that exceeded \$25,000 in aggregate.	Partially corrected	See similar finding and corrective action plan at 10-III-B
09-III-D	Time records prepared by District employees for time spent on GEAR UP related activities and accounted for against the District's required match for the program were not reviewed and approved by a certifying official or supervisor for the period July 1, 2008 to November 4, 2008.	Corrected	

(Continued)

Des Moines Independent Community School District

**Summary Schedule of Prior Audit Findings (Continued)
Year Ended June 30, 2010**

	Findings	Status	Corrective Action Plan
Other Findings Related to Required Statutory Reporting			
09-IV-A	Expenditures for the year ended June 30, 2009 exceeded the final amended certified budget amounts in the instruction function by \$410,779.	Uncorrected	See similar finding and corrective action plan at 10-IV-A
09-IV-G	<u>Finding 1</u> - Documentation to support the number of foster care students reported as enrolled is not maintained.	Uncorrected	See similar finding and corrective action plan at 10-IV-G
09-IV-G	<u>Finding 2</u> - The District's supporting documentation did not agree to what was certified to the Iowa Department of Education in relation to tuitioned in-out, open enrolled in and tuitioned in students.	Corrected	
09-IV-H	The District purchased short-term investments that were not in accordance with the statutory rates established by the State Rate Setting Committee.	Corrected	
09-IV-J	The Preschool Fund, Child Care Fund and Collage Fund had deficit balances as of June 30, 2009 of \$677,879, \$1,909 and \$55,847, respectively.	Uncorrected	See similar finding and corrective action plan at 10-IV-M

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards**

To the Board of Education
Des Moines Independent Community School District
Des Moines, Iowa

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Des Moines Independent Community School District (the District) as of and for the year ended June 30, 2010, which collectively comprise the Des Moines Independent Community School District's basic financial statements and have issued our report thereon dated December 10, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as item 10-II-A that we consider to be a significant deficiency in internal control over financial reporting. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain immaterial instances of noncompliance that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the basic financial statements of the District. Since our audit was based on tests and samples not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters in Section IV of the schedule of findings and questioned costs are not intended to constitute legal interpretation of those statutes.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's responses and, accordingly, we express no opinion on it.

We noted certain matters that we reported to management of the District in a separate letter dated December 10, 2010.

This report is intended solely for the information and use of the Board of Education, audit committee, management, others within the District and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

McGladrey & Pullen, LLP

Davenport, Iowa
December 10, 2010

**Independent Auditor's Report on Compliance With
Requirements that Could Have a Direct and Material
Effect on Each Major Program and on
Internal Control over Compliance in Accordance with
OMB Circular A-133**

To the Board of Education
Des Moines Independent Community School District
Des Moines, Iowa

Compliance

We have audited Des Moines Independent Community School District's (the District) compliance with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 10-III-A through 10-III-D.

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Education, audit committee, management, others within the District and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

Des Moines Independent Community School District

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

II. Findings Relating to the Financial Statement Audit as Required to be Reported in Accordance with Generally Accepted Government Auditing Standards

A. Significant Deficiency in Internal Control

10-II-A

Finding: The District has an improper segregation of duties over cash receipts of the student activity funds at the schools.

Criteria: A significant deficiency is a control deficiency that adversely affects the entity's ability to authorize, initiate, record, process or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected.

Condition/Context: The bookkeepers or office managers at the various schools maintain the records and deposit the cash. The Business Office records the receipt in the system.

Effect: Misappropriation of assets could occur and not be detected in a timely manner.

Cause: Improper segregation of duties.

Recommendation: We recommend an independent individual recount the funds and review the deposit slip.

Response and Corrective Action Plan: The District and its auditors recognize there are limited resources at the school level. An independent review of cash receipts is not always possible. Based on judgments made by management, the cost of implementing such a control would likely exceed the benefits derived. Other compensating controls are in place due to this limitation in resources. Pre-numbered cash receipts are issued for all money received by the school. Also, principals must review their building's monthly financial reports. The bank reconciliation process is performed by someone independent of the receipt process. The internal audit function periodically monitors the cash collection process at the school level with cash visits and exit audits. Those results are communicated to management.

B. Compliance Findings

None

(Continued)

Des Moines Independent Community School District

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

III. Findings and Questioned Costs for Federal Awards

A. Significant Deficiencies in Administering Federal Awards

None

B. Instances of Noncompliance

10-III-A

**U.S. Department of Education
Passed Through Iowa Department of Education
Title 1 Cluster
Title I Grants to Local Educational Agencies
ARRA – Title 1 Basic
(CFDA 84.010A & 84.389) (Fiscal Years 2009, 2010)**

Finding: The District did not serve eligible schools or attendance areas in rank order according to their poverty level.

Criteria: OMB Circular A-133 dictates that an LEA must serve eligible schools or attendance areas in rank order according to their percentage of poverty.

Condition: The District properly established a rank order based on poverty levels in calculating resources to allocate to Title I schools. Included in the allocation were budgets for each school to be spent on general Title I related expenditures. However, the District did not properly communicate these budgets to the schools and the amounts went unexpended; resulting in schools not being served in the rank order originally established.

Questioned Costs: None

Context: All eligible schools under Title 1.

Effect: The schools did not receive Title I services in rank order according to poverty level.

Cause: The District does not properly communicate budgets to the schools and the amounts were unexpended.

Recommendation: The District should review its procedures for delivering Title I funds to schools operating schoolwide programs. Through this review, they should implement procedures to ensure that the planned amount of Title I funds are properly delivered to each school.

Response and Corrective Action: The District developed procedures to appropriately provide resources to Title I schools in rank order according to poverty levels; however, failed to communicate additional budgets to those schools. The District will develop procedures to effectively communicate budgets to Title I schools.

(Continued)

Des Moines Independent Community School District

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

10-III-B

**U.S. Department of Education
Passed Through Iowa Department of Education
Title 1 Cluster
Title I Grants to Local Educational Agencies
ARRA – Title 1 Basic
(CFDA 84.010A & 84.389) (Fiscal Years 2009, 2010)**

**U.S. Department of Education
Passed Through Heartland Area Education Agency II
Early Intervening Services Cluster Special Education Grants to States
ARRA – Stabilization – Special Education IDEA Part C
(CFDA 84.181 and 84.393) (Fiscal Year 2010)**

Finding: The District did not ensure vendors providing goods and services under covered transactions were not suspended or debarred prior to contracting. However, per the EPLS website the vendors are not currently suspended or debarred.

Criteria: OMB Circular A-133 dictates when the District enters into a covered transaction, it is required to verify that the entity is not suspended or debarred or otherwise excluded. This verification may be accomplished by checking the Excluded Parties List System (EPLS) maintained by the General Services Administration (GSA), collecting a certification from the entity or adding a clause or condition to the covered transaction with the entity.

Condition: The District has a policy for obtaining certification for all new vendors that the entity is not suspended or debarred, however the policy does not apply to previously used vendors.

Questioned Costs: None

Context: The District received services from 3 vendors under covered transactions.

Effect: The District could enter into a transaction with a previously used vendor that has become suspended or debarred.

Cause: The District was unaware they should verify vendors previously used by the District.

Recommendation: The District should review its procedures to ensure previously used vendors are also reviewed for the suspension and debarment requirement, as vendor status can change.

Response and Corrective Action Plan: The District will develop procedures to periodically review the EPLS website during the year to ensure that covered vendors are not suspended or debarred.

ARRA – Stabilization – Special Education Grants to States IDEA Part B
(CFDA 84.391 and 84.392) (Fiscal Years 2009, 2010)**

Finding: The District has a system in place to document employee's federal time with semi-annual certifications or federal activity reports. However, the District was unable to provide documentation of Federal activity for multiple employees that were charged to the program.

Criteria: The Office of Management and Budget Circular A-87 requires a distribution of salaries be supported by personnel activity reports or equivalent documentation for all employees who work for more than one cost objective and the documentation be signed by the employee. Also, the circular requires at least quarterly comparisons of actual cost to budgeted distributions be made and reflect adjustments as a result of actual activity performed.

Condition: The District was unable to produce documentation to support some of the fully funded and partially funded employees selected.

Questioned Costs: None

Context: The District was unable to provide documentation of Federal activity for 12 out of 52 Title I Cluster selections requested, 1 out of 17 Early Intervening Services Cluster selections requested, and 17 out of 56 Special Education Cluster selections requested.

Effect: Improper payroll expenditures could be charged to the Federal program.

(Continued)

Des Moines Independent Community School District

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

Cause: Documentation was unavailable.

Recommendation: The District should review its procedures to ensure all Federal activity is properly documented and maintained

Response and Corrective Action Plan: The District will communicate with site administrators that were unable to provide sufficient documentation for the certifications in question. The District will continue to selectively review sites for adherence to procedures regarding federally funded employees.

10-III-D

**U.S. Department of Education
Passed Through Iowa Department of Education
Title 1 Cluster
Title I Grants to Local Educational Agencies
ARRA – Title 1 Basic
(CFDA 84.010A & 84.389) (Fiscal Year 2010)**

Finding: The District did not notify the State in a timely manner of its intent to spend less than 20% of its Title I allocation on choice related transportation and supplemental educational services.

Criteria: The OMB Circular A-133 requires Districts that spend less than 20% of the Title I allocation must notify the SEA of its intent to do so.

Condition: The District meets all criteria to spend less than 20% of its Title I allocation on choice related transportation and supplemental services. However, the District did not notify the SEA in a timely manner.

Questioned Costs: None

Context: Choice related transportation and supplemental education services.

Effect: The State did not have the opportunity to accept or reject the District's plan to spend less than the required amount.

Cause: The District was not aware of the notification requirement.

Recommendation: In the future, the District should ensure the state is notified that it intends to spend less than 20% of its Title I allocation on choice transportation and supplemental services.

Response and Corrective Action Plan: The District will develop procedures to notify the state in a timely manner if less than 20 percent of Title I funds are intended to be spent on choice transportation and supplemental services.

Year Ended June 30, 2010**

IV. Other Findings Related to Required Statutory Requirements

10-IV-A – Certified Budget and General Fund Spending Authority

Finding: Expenditures for the year ended June 30, 2010 exceeded the final amended certified budget amounts in the other function by \$283,658 or 0.5 percent.

Recommendation: The certified budget should be amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures are allowed to exceed the budget.

Response: The budget was exceeded due to bond issuance costs which were not budgeted. The District will ensure that expenditures do not exceed the final amended budget for each functional area.

Conclusion: Response accepted.

10-IV-B – Questionable Expenditures – No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

10-IV-C – Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

10-IV-D – Business Transactions – No business transactions between the District and District officials or employees were noted.

10-IV-E – Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.

10-IV-F – Board Minutes – Board minutes were signed off on and each member's vote was properly recorded.

Finding: The District did not publish board minutes as required by Chapter 279.35 and 279.36 of the Code of Iowa.

Recommendation: The Board secretary should furnish a copy of the Board proceedings to be published within two weeks of each meeting.

Response and Corrective Action Plan: The Board Secretary will furnish a copy of the Board proceedings for publication within two weeks of each meeting.

Conclusion: Response accepted.

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

10-IV-G – Certified Enrollment - No material variances in the basic enrollment data certified to the Department of Education was noted. However the following was noted.

Finding: The District does not keep documentation supporting the number of foster care students reported as enrolled within the District unless they are special education foster care students.

Recommendation: The District is required to maintain instructions on file describing the procedures for tracking the number of foster care students, which includes communication with foster care facilities. Information from these facilities should be maintained in the file as supporting documentation.

Response and Corrective Action Plan: Due to confidentiality of foster care records, the District cannot properly identify and document foster care students enrolled in the District outside of Special Education instruction.

Conclusion: Response accepted, although there does not seem to be a solution because of confidentiality.

10-IV-H – Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

10-IV-I – Deposits and Investments – The District's policy for deposits and investments is in compliance with the Code of Iowa, with the following exception:

Finding: The District held deposits and investments at one institution in excess of the maximum amount authorized by the Board of Education, as the result of a bond issuance.

Recommendation: The District should review its procedures to ensure it is in compliance with all board policies.

Response and Corrective Action Plan: The District will develop procedures to ensure that deposits and investments made with qualified depositories are within the limits authorized by the Board.

Conclusion: Response accepted.

10-IV-J – Certified Annual Report – The Certified Annual Report (CAR) was filed with the Iowa Department of Education timely. However, we did note the following item:

Finding: The District reported the value of the investments held in the Pension Trust Fund at cost; with no adjustment for fair value. This resulted in a \$15.3 million difference in the amount reported on the CAR and the amount reported on the District's financial statements.

Recommendation: We recommend the District report investments at fair value on the CAR in the future.

Response and Corrective Action Plan: The District will develop procedures to ensure that investments are reported at fair market value on the Certified Annual Report to the State.

Conclusion: Response accepted.

Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010

10-IV-K – Categorical Funding - No instances of categorical funding being used to supplant rather than supplement other funds were noted.

10-IV-L – Statewide Sales, Services and Use Tax - No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. For the year ended June 30, 2010, the District's financial activity and other required information for the statewide sales, services and use tax revenue are as follows:

Beginning balance		<u>\$ 8,081,713</u>
Local option sales tax		24,841,106
Earnings on investments		21,936
Other local and federal sources		1,165,326
Other local sources		<u>1,135</u>
		26,029,503
Other sources:		
Issuance of revenue bonds		70,000,000
Premiums on revenue bonds		<u>5,271,516</u>
		101,301,019
Expenditures/transfers out:		
School infrastructure:		
Land	\$ -	
Buildings	29,726,648	
Equipment	1,521,000	
Other improvements	3,096,087	
Debt service for school infrastructure:		
General obligation debt	-	
Revenue debt	-	<u>34,343,735</u>
Ending balance		<u><u>\$ 75,038,997</u></u>

The statewide sales, services and use tax (SSSUT) revenue received during the year ended June 30, 2010 is equivalent to a potential reduction in the following levies had the District not had the SSUT and had instead asked the voters to approve a levy for general obligation debt equal to the amount of the SSSUT revenue received during fiscal year 2010:

	Per \$1,000 of Taxable Valuation	Property Tax Dollars
	<u> </u>	<u> </u>
Debt service levy	\$ 3.64735	\$ 24,841,106

(Continued)

Des Moines Independent Community School District

**Schedule of Findings and Questioned Costs (Continued)
Year Ended June 30, 2010**

10-IV-M – Deficit Balances – The Preschool Fund, Child Care Fund and Collage Fund had deficit balances as of June 30, 2010 of \$677,879, \$253,772 and \$79,158, respectfully.

Finding: In the current and prior year, the Child Care Fund, Preschool Fund and Collage Fund have reported a deficit balance.

Recommendation: The District should continue to investigate alternatives to eliminate these deficits in order to return funds to a sound financial condition.

Response and Corrective Action Plan: Preschool is no longer being accounted for as an enterprise fund. The state now provides free preschool to four year olds and program activities are now accounted for in the General Fund. Therefore, the District plans to eliminate the remaining negative balance in the preschool enterprise fund when the child care enterprise fund is able to absorb balance.

The District continues to analyze the Collage Fund's activities and have taken steps to reduce the negative fund balance.

Conclusion: Response accepted.

10-IV-N – Property Disposal: The District did not properly advertise property disposals in the current year

Finding: The District did not comply with Iowa State code section 297.22 which states that "property having a value of not more than five thousand dollars, other than real property, may be disposed of by any procedure which is adopted by the board and each sale shall be published by at least one insertion each week for two consecutive weeks in a newspaper having general circulation in the district". The District advertised the sales through an online auction website instead of the newspaper, which violates the Iowa code.

Recommendation: The District should adopt a policy that is consistent with the Iowa code.

Response and Corrective Action Plan: In the past the District used a "live" auction service and properly advertised those events in the newspaper. In order to expand our audience and to improve financial returns of assets being liquidated, the District changed its procedures in December 2009 to begin utilizing an online auction service. The District's understanding was that notices sent by the online auction service to the Iowa Press Association were being published in the local newspaper. We have been unable to conform that those notices were published in the newspaper. In order to prevent timing issues with the online auction service and the issuance of the publications, the District has negotiated with the service to have them send notices to the Des Moines Register regarding the date and time for each online auction event. To further ensure compliance the District will request that each event's publication be documented in an affidavit to be sent to and retained by the District's purchasing department.

Conclusion: Response accepted.
