# **Demographic Data and Projections**

## **Des Moines Independent Community School District**

### **Introduction**

This Demographic Data and Projections Study is an update of the 2008 Study prepared to inform the facilities planning function of the Des Moines Public Schools. This study provides 2000 and 2010 demographic census data, 2013 estimates and projections for the year 2018.<sup>1</sup> These are provided for the district as a whole and for each high school, middle school and elementary school attendance area.<sup>2</sup> Information for the District as a whole is presented first. Then the study briefly describes residential building permit data for building permits issues for the years 2011 and 2012 within the City of Des Moines and the District. Also presented are data regarding the minority status of pre-school and school age children within the District.

### **Key Demographics for the District as a Whole**

#### **Population**

- The population in the Des Moines Public School District area is estimated to have increased from 204,628 in the year 2010 to 208,287 in 2013, resulting in an increase of 1.8%. Over the next five years, the population is projected to increase further to 213,792, an additional 1.0%.

---

<sup>1</sup> Source: Nielsen Demographic Estimation Program 2013 Pop-Facts – Polk County and Northern Warren County, IA and Synergos Technologies, Inc. (STI) 2012.3 PopStats - Des Moines, IA Market Area.

<sup>2</sup> Certain elementary schools do not have defined attendance areas or are included as a part of a larger elementary attendance area. These include Cowles, Jefferson, Phillips, Walnut Street, Goodrell, Central Campus, Smouse, Van Meter, and the Downtown School.

- The number of preschool and school age children, i.e., from 0 to 17 years of age, was 50,832 in 2010. It is estimated that that number has increased to 52,029 in 2013 and is projected to increase further to 54,981 in 2018.
- The current year median age for the population of the District is 34.5 years and the average age is 36.4. Five years from now, the median age is projected to be 26.9 years.
- Of the District's 2013 population, it is estimated that 75.4% are White alone, 10.5% are Black or African American alone, 0.5% are American Indian or Alaska Native alone, 4.6% are Asian alone, 0.1% are Native Hawaiian or other Pacific Islander alone, 5.4% are Some Other Race and 3.65% are Two or More Races.
- The District's current estimated Hispanic or Latino population is 13.1%.<sup>3</sup>

## Household Income

- The average household income is estimated to be \$55,948 for 2013.
- The current year estimated median household income for the District is \$42,874.

## Educational Attainment

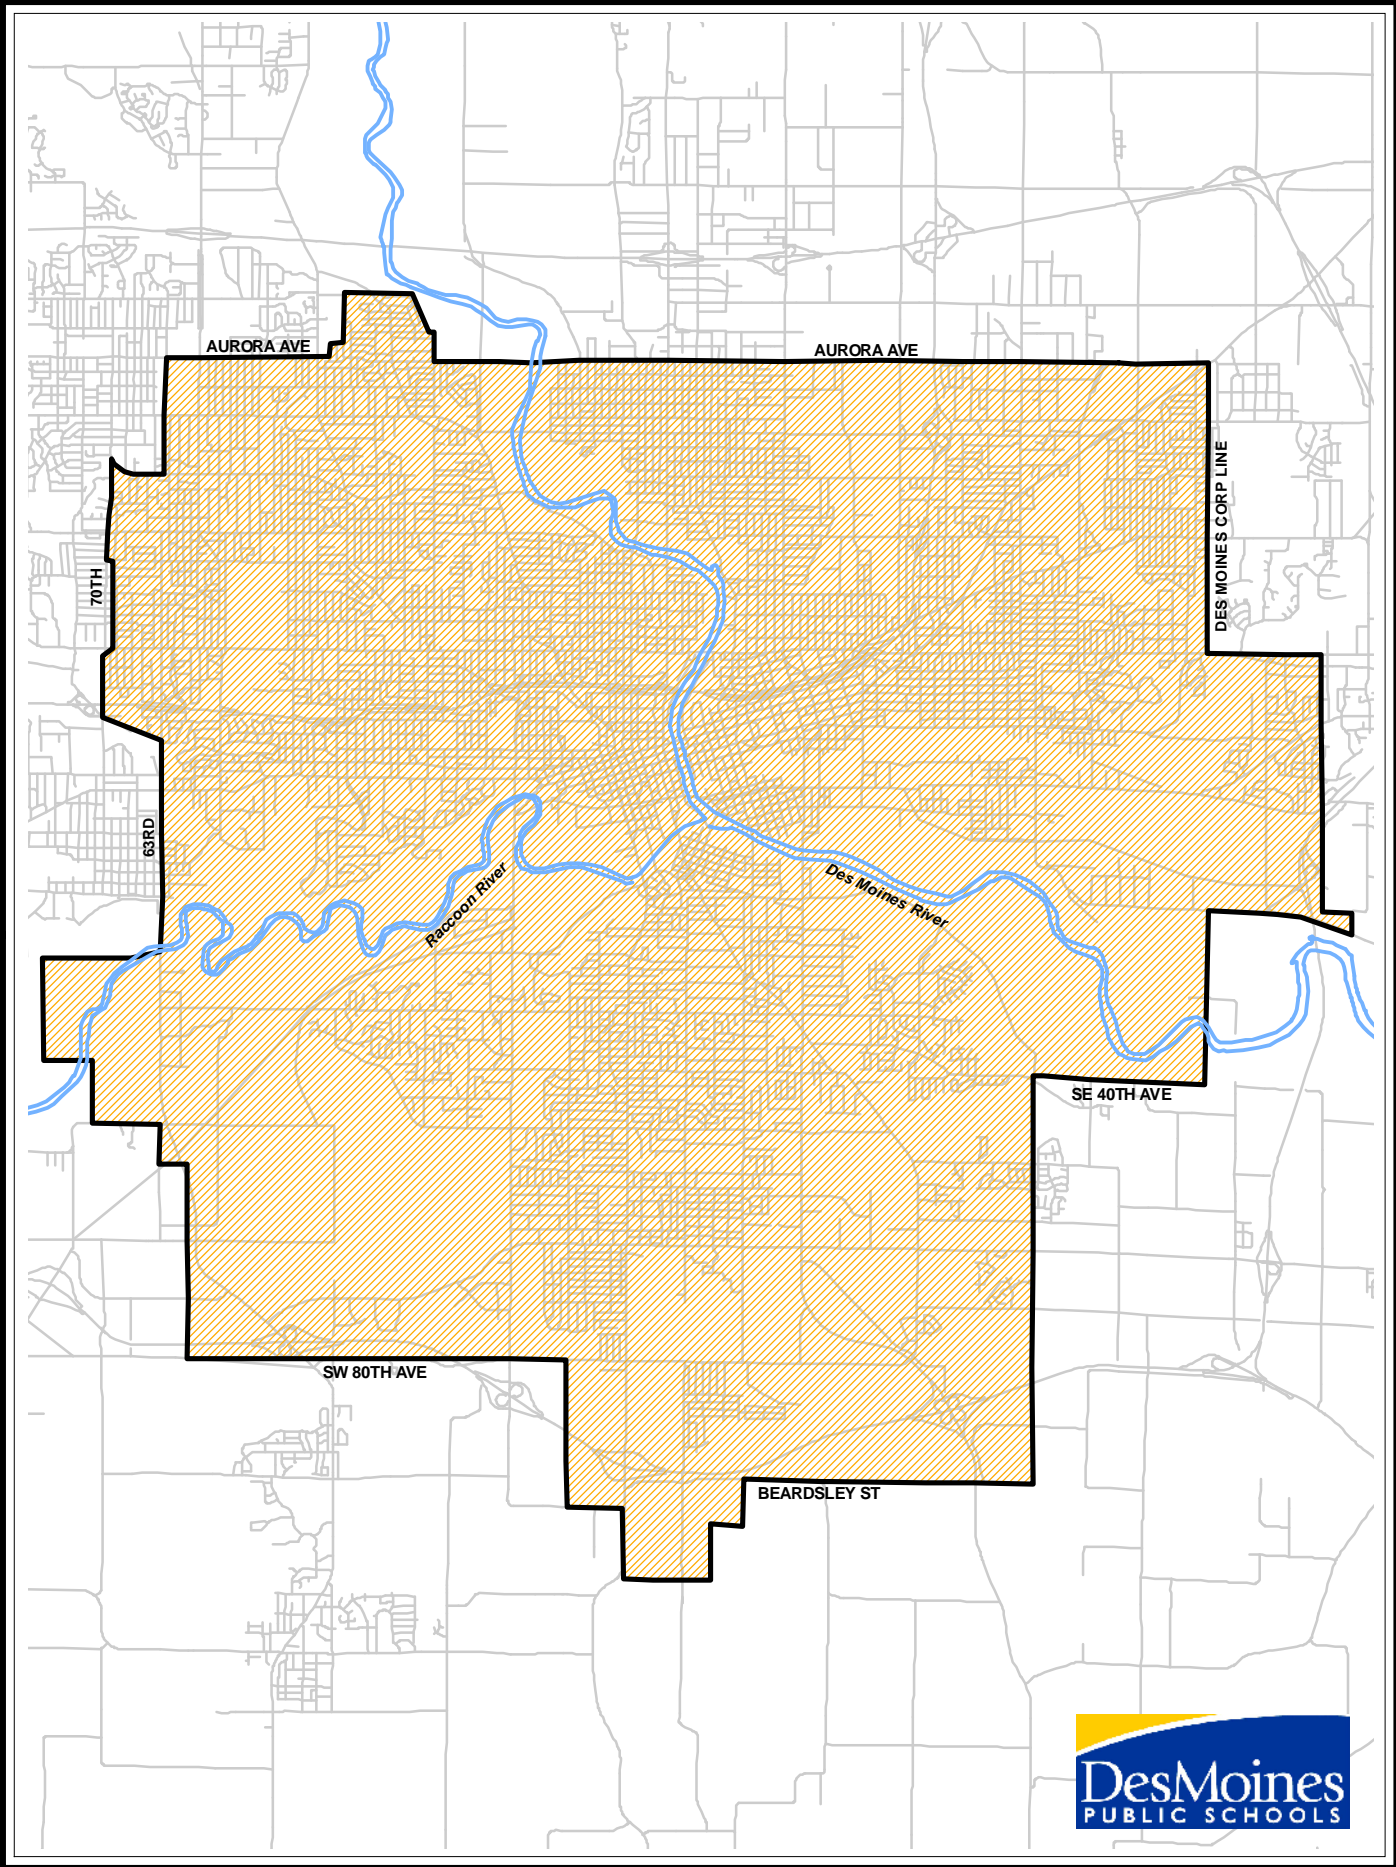

- Currently, of the population in the District over age 25:
  - 5.92% have less than 9<sup>th</sup> Grade
  - 8.07 % have some High School, no diploma
  - 32.77% are high School Graduates (or GED)
  - 22.47 % have some College
  - 6.00% have earned an Associate Degree
  - 15.87% have earned a Bachelor's Degree
  - 6.79% have earned a Graduate or Professional Degree

A more detailed demographic summary for the District as a whole follows.

---

<sup>3</sup> "Hispanic or Latino" is not considered to be a racial category

## **District Minority Enrollment**

# Des Moines Public School District Minority Enrollment

One question this study was asked to address is “Since the District’s population is 75.4 percent non-minority, how is it that the District’s enrollment is over 50 percent minority?”

Several factors were examined. First was the accuracy of the 2010 Census. While the Census Bureau claims the 2010 census the most accurate ever, it acknowledges some over-count of non-minorities and some under-count of minority groups.<sup>1</sup> Nationally, the Census Bureau estimates that 2.1% of the black population was not counted and that 1.5% of the Hispanic population was not counted. However, assuming an under-count for the District would not be sufficient to answer the question.

This study next examined whether a difference in average household size between minority and non-minority households exists. Presented on the page following are data for each of the elementary attendance areas for the Percent of White Only and the Average Household Size arranged in descending order. For the sixteen attendance areas with the highest percentage of White Only, averaging 84.1%, the Average Household Size calculates to be 2.32 persons. For the sixteen lowest, the average White Only population decreases to 67.2% while the Average Household Size increases to 2.49 persons. The larger average household size of minority households would reflect a corresponding larger number of children in the minority households.

On the page following that, the table School Age Population by Race – 2010 Census is presented. That Table shows the numbers of minority children enrolled in the District in 2010 that are ages 5-17 years. Since Hispanic is not considered a race, most Hispanic households would answer the Census questionnaire as Other Race or 2 or More Races. These data show that of the children 5-17 years in the District in 2010, 64.1 % were White Only. However, the 2011-12 PK -12 White Only enrollment was only 48.0%. It appears that a significant percentage of White Only school age children are not enrolling in the DMPC District.

---

## **South Des Moines Area**

# Des Moines Independent Community School District - South Area

# South Des Moines Area

## Introduction

Due to the lack of vacant land suitable for residential development in the northern part of the District, the primary potential for significant addition residential development lies south of the Raccoon and Des Moines Rivers (see map page above). However, with annexations northeast and southeast, some portion of new residential development likely will occur outside of the Des Moines Public Schools District. While land has been assembled and new residential developments are being planned by developers, both the downturn in the housing market and two bankruptcies of developments in the South Area have depressed new residential development. The bankruptcies have resulted in a number of developed lots owned by financial institutes being disposed at reduced prices to individual home builders.<sup>1</sup> Once this inventory is absorbed, it is likely that new residential developments will come on line.

## Building Permit History

Presented in the table, *Residential Building Permits – 2010 to April 2013*, page following, are data for residential building permits issued City-Wide, within the Des Moines Public Schools District and permits within both the District and the South Des Moines Area.<sup>2</sup> As the reader may note, a significant drop in the issuance of residential building permits occurred in 2011. However, an upturn in residential development is reflected by the issuance of building permits in 2012 for 123 single family units and 230 multi-family units.

It is interesting to note that during the period 2010 to April 2013, a total of 1,086 residential dwelling units were permitted. Of these, 990 were within the limits of the Des Moines Public Schools district, the majority of which were for multi-family dwelling units. It is also interesting to note that only 37.6 % were located within the South Des Moines Area. While the South area holds the greatest potential for residential development, such development currently is limited.

---

<sup>1</sup> Interview with Mathew A. Anderson, Assistant City Manager, April 11, 2013.

<sup>2</sup> See Appendix B for detailed residential building permit data. Data for actual construction by year however were not available for this study.

## Key Demographics for the South Des Moines Area as a Whole

### Population

- The population in the South Des Moines Area is estimated to have increased from 61,823 in the year 2010 to 63,651 in 2013, resulting in an increase of 3.0%. Over the next five years, the population is projected to increase further by 4.3%.
- The number of preschool and school age, i.e., from 0 to 17 years of age, was 16,534 in 2010. It is estimated that that number has increased to 17,149 in 2013 and is projected to increase to 18,144 in 2018.
- The current year median age for the population of the South Area is 33.7 and the average age is 34.8 years.
- Of the South Area's 2013 population: 77.5% are White Alone, 8.0% are Black or African American alone, 0.6% are American Indian or Alaska Native alone, 4.6% are Asian alone, 0.1% are Native Hawaiian or other Pacific Islander alone, 5.57% are Some Other Race, and 3.8% are Two or More Races.
- The area's current estimated Hispanic or Latino population is 14.15%

### Households

- In 2010, the average household size was 2.54 persons. By 2013, it has declined to 2.53. A further decline to 2.51 is estimated for 2018.
- While the number of households, as well as the number of housing units, has been increasing, the decline in average household size has results in a slightly slower increase in the population noted above.

### Household Income

- The average household income is estimated to be \$58,678 for 2013.

## Educational Attainment

- 5.5% have Less than 9<sup>th</sup> Grade
- 8.1 % have some High School, no diploma
- 35.8% are High School Graduates (or GED)
- 23.7% have some College
- 8.8% have earned an Associate Degree
- 13.4% have earned a Bachelor's Degree
- 3.3% have earned a Master's Degree
- 1.5% have earned a Professional or Doctorate Degree
